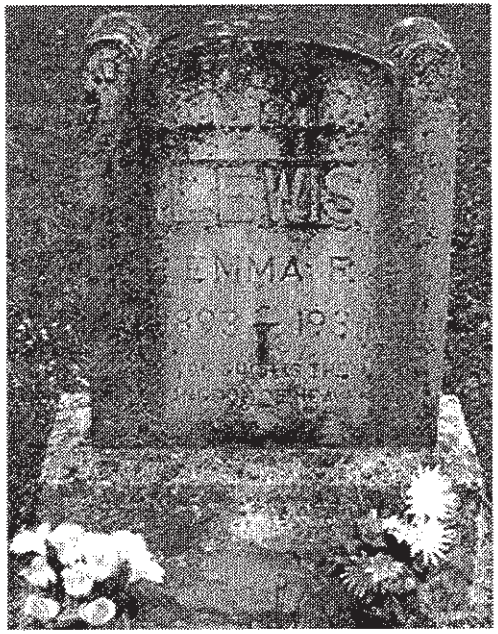
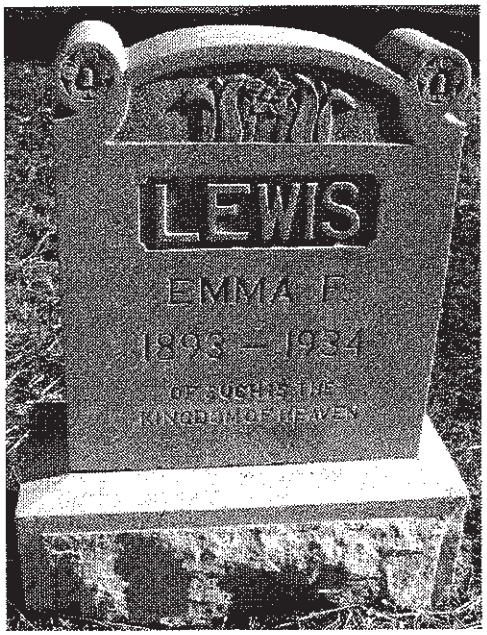
CRANE'S BURIAL PLOTS



Before Restoration



After Restoration

NAVAL SUPPORT ACTIVITY (NSA)

Crane, Indiana

August 2013

Cover Photo: Old Salem Cemetery, NSA Crane
Emma F. Lewis - 1893 – 1934 – inscription reads *"Of Such Is The Kingdom Of Heaven"*

Excerpt from Reference, "NAVAL SUPPORT ACTIVITY CRANE CEMETERY VISITATION RULES",

(NSACRANEINST 11170.11, 13 MAY 2013), Attachment (C):

Persons desiring to visit Naval Support Activity (NSA Crane) Civilian cemeteries must obtain appropriate security credentials to gain access to the facility (i.e. visitor's passes) in advance of their arrival. Visitor and camera passes may be obtained by contacting the NSA Crane Installation Commanding Officer's Administrative Assistant at 812-854-3965. If the desired visitation day is not a regularly scheduled Public visitation day, then the visitor may obtain special permission by contacting the NSA Crane Installation Commanding Officer (CO) at telephone 812-854-8989.

While visiting the Cemeteries please observe the following:

1. **DO NOT** attempt to clean, straighten, or repair any gravestone without prior written permission from the NSA Crane CO.

2. **DO NOT** attempt to make rubbings of gravestone inscriptions. The roughness of the stone will cause tiny holes in your paper. Subsequently, pencils, chalk, crayons, etc. will go through the tiny holes and deposit onto the stones. This causes permanent damage.

3. **DO NOT** apply anything to the stones (i.e., shaving cream, chalk, dirt, flour, etc.). The substances are absorbed into the stone. Over time, this accelerates degradation of the stone. Instead, record the information on the stones by taking photographs. The best time of day for photographs is morning or afternoon when the sunlight rakes across the face of the stone. Digital photo software is a nice tool, and by editing your photos into black & white, you can adjust the contrast for nice readability. In addition, the local publication "Crane's Burial Plots" is a comprehensive listing of all gravesites at NSA Crane, including pertinent data recorded from the gravestones, and may be examined at B-3245 or by contacting the Cultural Resources Manager at 812-854-6162.

4. **DO NOT** apply any chemicals to the stones (i.e., bleach, ammonia, 409, fantastic, lemon juice, comet, Ajax, Bar Keepers Friend, Liquid soaps, etc.). This causes permanent damage.

5. **DO NOT** use sandpaper, scratchy pads, steel wool, wire brushes, etc. on the stones. This causes permanent damage.

6. **DO NOT** spray weed killer or chemicals around the stones. This causes damage.

7. **DO NOT** use a mechanical weed trimmer or other power tools around the stones. Any weed trimming or pulling should be done by hand. (Scheduled, professional lawn maintenance, including weed trimming, is provided by the Navy during the growing season).

8. **DO NOT** spray anything on a gravestone except plain water.

9. **Do NOT** remove a gravestone from its location in the cemetery. If you find a broken stone or fragment, leave it where it lies, and report the finding to the Cultural Resources Manager (812-854-6162). Removing or moving a gravestone without a permit is against the law.

10. **DO NOT** try to straighten a leaning gravestone. They are delicate and can easily break. Large stones are very heavy and could fall on you. Only professionals are allowed to perform these types of repairs.

11. **DO NOT** allow anyone in your party to climb or sit on the gravestones.

12. All visitors assume any and all liability arising from, or in any way related to, visiting NSA Crane. NSA Crane and/or the Federal Government shall not be responsible or in any way liable for injuries or damage that occur while on government property.

13. **Please** contact NSA Crane's Cultural Resources Manager with any questions or concerns you may have at 812-854-6162, or e-mail nancy.albertson@navy.mil

AS A REMINDER: CEMETERIES CONTAIN UNEVEN GROUND AND COULD CAUSE TRIPS AND FALLS. PLEASE BE CAREFUL.
