

2003 Institutional Library Statistics Introduction

Institutional library statistics are compiled annually from statistical report forms sent to each of Indiana's institutional libraries.

Not all institutional libraries returned their report form, and not all items on each returned form were filled out. However, there are a record number of libraries represented in the 2003 data. The data are in alphabetical order by the name of the institution. If there is a blank or a "0" (zero) in the data files, the number was not reported and/or not collected by the reporting institution.

Please feel free to forward any comments, suggestions, or questions to the Library Development Office.
