Dear Friends,

We are pleased to share with you the Indiana Arts Commission 2011 & 2012 biennial report. We hope this report details useful information about the programs and services we provide the citizens of Indiana, and their impact on Hoosiers of all ages in all regions of our great state.

We encourage you to carefully review the information provided in this report to fully appreciate the impact of the arts in your region of the state. Review the list of grant recipients and program participants in the back of the report and we believe you will be impressed not only with the number of people positively impacted by Indiana Arts Commission grants and services, but also by the diversity of people, communities and organizations served.

The Indiana Arts Commission welcomes our newly-elected Governor, Lieutenant Governor, as well as legislators. We look forward to working with all of you to advance the arts in Indiana. We are particularly excited to know the incoming First Lady is a professional watercolor artist, and our Lt. Governor-elect has first-hand experience with music education.

Through determined leadership and sacrifice, Indiana has emerged from a recession in a much stronger position than many other states. According to a recent study by Indiana University, employment in the arts, entertainment and recreation sectors remained stable during times when overall employment in Indiana decreased, and then rebounded more quickly than other sectors during our economic recovery. These jobs not only make significant contributions to the state's economy, but also appear to weather economic changes better than in many other industries.

According to national economic research by Americans for the Arts, nearly 53,000 Hoosiers were employed, full-time, in arts-related jobs in 2011, an increase of 5,700 since 2010. The same study reports 13,570 arts-related businesses call Indiana home. Details of this information will be shown for each of the Indiana Arts Commission's 11 geographic regions. Each of these businesses and these Hoosier workers support families and contribute to the local, state and national economy and tax base.

The arts are a critical element to help us see not only who we are but what we are capable of being. The arts may help us be better human beings, but they also help strengthen our schools, our workplaces, and our communities. This creative economy, fueled by the arts, helps our communities and state attract the very best and brightest creative thinkers and entrepreneurs.

Thank you for taking the time to explore the arts of Indiana. We stand ready to provide any additional information or answer any questions. We celebrate the arts with you and value their impact on the lives of millions of Hoosiers.

Sincerely,

Jon Ford

About the Indiana Arts Commission's Grant Programs

Indiana has an impressive history of significant contributions to the arts. Home to artists such as T.C. Steele and Robert Indiana, designers Bill Blass and Michael Graves, entertainers Hoagy Carmichael and Crystal Gayle, Indiana has inspired and encouraged generations of Hoosiers.

For more than 40 years, the Indiana Arts Commission (IAC) has advocated for and extended grant support to Indiana artists and community-based cultural organizations. Strengthening the arts is critical to strengthening a dynamic and creative workforce throughout our state. More than 13,500 arts-related businesses call Indiana home and employ nearly 53,000 Hoosiers.

The Commission first awarded 42 grants in 1969, and today, centrally and through its Regional Arts Partner system, annually awards grants to nearly 400 individual artists, arts organizations, and cultural program providers throughout the State of Indiana. Qualifying for an IAC grant has come to represent a "gold seal" standard of excellence. A breakdown of the grants in each county for FY2011 & FY2012 begins on page 22.

.....

Arts in Education Grant (AIE)

Funded primarily through interest income from revenue generated by the Celebrate the Arts license plate, this program was developed to help support in-classroom, arts-related learning projects. These projects partner schools and teaching artists to develop activities that impact student engagement and performance, and develop long-term commitment to the arts in Indiana schools at the primary and secondary level. For more information, visit:

www.IN.gov/arts/artsineducation.htm.

Individual Artist Program (IAP)

This program is designed to provide individual artists with grant assistance for specific projects that will help further their career development. Grants have been used to meet the artists' needs in promotion, business development, and developing and reaching new markets for their work. The program also encourages artists to develop projects that have a positive impact on their communities where they live and work. For more information, visit:

www.IN.gov/arts/individualartistprogram.htm.

Multi-Region Arts Operating Support (AOS III)

Formerly known as Multi-regional Major Institutions, or Majors, this grant is for Indiana's largest arts organizations with budgets in excess of \$1 million and multi-regional program exposure with a focus on educational opportunities. These organizations provide significant economic and employment impact in the communities where they are located, and contribute to the economic and cultural tourism development of the entire state. For more information, visit:

www.IN.gov/arts/AOSIII.htm.

Regional Arts Partnership (RAP)

Regional Arts Partnership organizations work with the IAC to provide core services to community-based cultural organizations in specific, multi-county regions of the state. The Partners receive an annual block grant from the IAC specifically formulated to meet the needs of organizations in their regions via the Regional Initiative Grant program. Block grant amounts vary by region. For more information, visit:

www.IN.gov/arts/regionalartspartner.htm.

Regional Initiative Grant (RIG)

In most regions, there are four primary grant categories awarded for cultural programming providers. Grant amounts vary depending on a variety of factors. For more information, visit:

www.IN.gov/arts/regionalinitiativegrant.htm.

Large Operating Support (AOS II)

This category is for organizations with annual cash incomes of \$250,000 or more.

Small Operating Support (AOS I)

This category is for organizations with annual cash incomes of \$249,999 or less.

Large Project Support (APS)

Arts Project Support grants are designed for cultural program providers that do not have a primary arts-focused mission. Many libraries, universities, public schools, and community centers qualify for this grant category.

Small Project Support (Mini)

Some Regional Arts Partners offer Small Project Support grants, or mini-grants, for single project applications. As with the Large Project Support grants, the applicant need not have a primary arts-focused mission.

Statewide Arts Service Organizations (SWASO)

This grant program helps strengthen the capacity of arts organizations offering training and or technical assistance services on a statewide basis. Such projects may include seminars, conferences, workshops and training sessions.

For more information, visit:

www.IN.gov/arts/SWASO.htm.

Technical Assistance Program Grant (TAP)

Technical Assistance Program grants assist established and emerging institutions and artists by building effective leadership, sound management practices, diverse financial resources, and successful partnerships. Applicants must be a private, nonprofit, tax-exempt agency, or Indiana public entity. Applicants scores are based on three key criteria: educational value; community participation and accessibility; and planning and evaluation. For more information, visit:

www.IN.gov/arts/technicalassistanceprogram.htm.

Traditional Arts Indiana (TAI)

This partnership between the IAC and Indiana University's Folklore & Ethnomusicology Department documents, promotes, and presents Indiana's traditional arts and artists, particularly those practicing art forms handed down through generations reflecting ethnic, cultural, and geographically unique customs. Each year, TAI and the Indiana Arts Commission present Traditional Arts Master awards at the Indiana State Fair. For more information, visit:

www.IN.gov/arts/2328.htm.

Other IAC Statewide Efforts

Arts Midwest

Arts Midwest, one of six regional arts organizations in the U.S., serves audiences, arts organizations, and artists throughout Illinois, Indiana, Iowa, Michigan, Minnesota, North Dakota, Ohio, South Dakota, and Wisconsin. The IAC annually provides a grant to Arts Midwest which, coupled with other Arts Midwest support, regrants to presenters and performing touring artists from Indiana, allowing them to tour throughout the Midwest, and Indiana presenters to showcase the best of Indiana and Midwest artists. For more information, visit: www.IN.gov/arts/2698.htm.

ArtsWORK Indiana

ArtsWORK Indiana is an informal, statewide group of people interested in improving arts-related professional opportunities and careers for people with disabilities. Participants include artists, as well as people involved in supporting opportunities for artists, such as rehabilitation professionals, college counselors, and arts administrators. For more information, visit: www.artsworkindiana.org.

Capacity Building Workshops

Capacity Building Workshops help connect educational opportunities to constituents. The first such workshops were held in 2010 and have continued each year since, providing professionally-led training and focused discussion on a broad range of subjects related to fundraising, building stronger communities and partnerships, and organizational leadership. For more information, visit: www.IN.gov/arts/2659.htm.

Cultural District Certification Program

A cultural district is a well-recognized, labeled, mixed-use area of a community in which a high concentration of cultural assets serve as the anchor. This legislatively enabled program, administered by the IAC, establishes criteria and a selection process to identify such districts. The program helps certified cultural districts promote the exploration of and participation in the arts and humanities through cultural experiences that are unique to their communities. For more information, visit: www.IN.gov/arts/2654.htm.

Cultural Trust Fund

Created by legislation in 1997, the Indiana Cultural Trust was established as a vehicle to enhance and stabilize funding for the arts, encouraging, promoting, and expanding the arts for future generations of Hoosiers. For each purchase and renewal of the Indiana Celebrate the Arts special-issue license plate, a \$25 donation goes to the Cultural Trust Fund. Interest income from the Trust Fund investment annually supports the Indiana

Arts Commission's Arts in Education program. For more information, visit www.IN.gov/arts/artstrustplate.htm.

Governor's Arts Awards

This biennial awards program, conceived in partnership with the Office of the Governor, is administered by the IAC. The purpose of the awards is to honor significant contributions to and achievements in the arts, which have had a profound positive impact on the state of Indiana. The IAC also commissions the creation of new artwork by an Indiana artist which serves as the award piece. In this way, the awards also encourage the creation of new works of art by contemporary Hoosier artists. For more information, visit: www.IN.gov/arts/2332.htm.

Poetry Out Loud

Each year, the IAC hosts the state Poetry Out Loud competition, a poetry recitation contest for high school students supported by the National Endowment for the Arts (NEA) and the Poetry Foundation. Students first compete at a local level to determine which students will represent their respective schools in the state final competition. The state champion represents Indiana at the National Finals in Washington, D.C. For more information, please visit: www.IN.gov/arts/2422.htm.

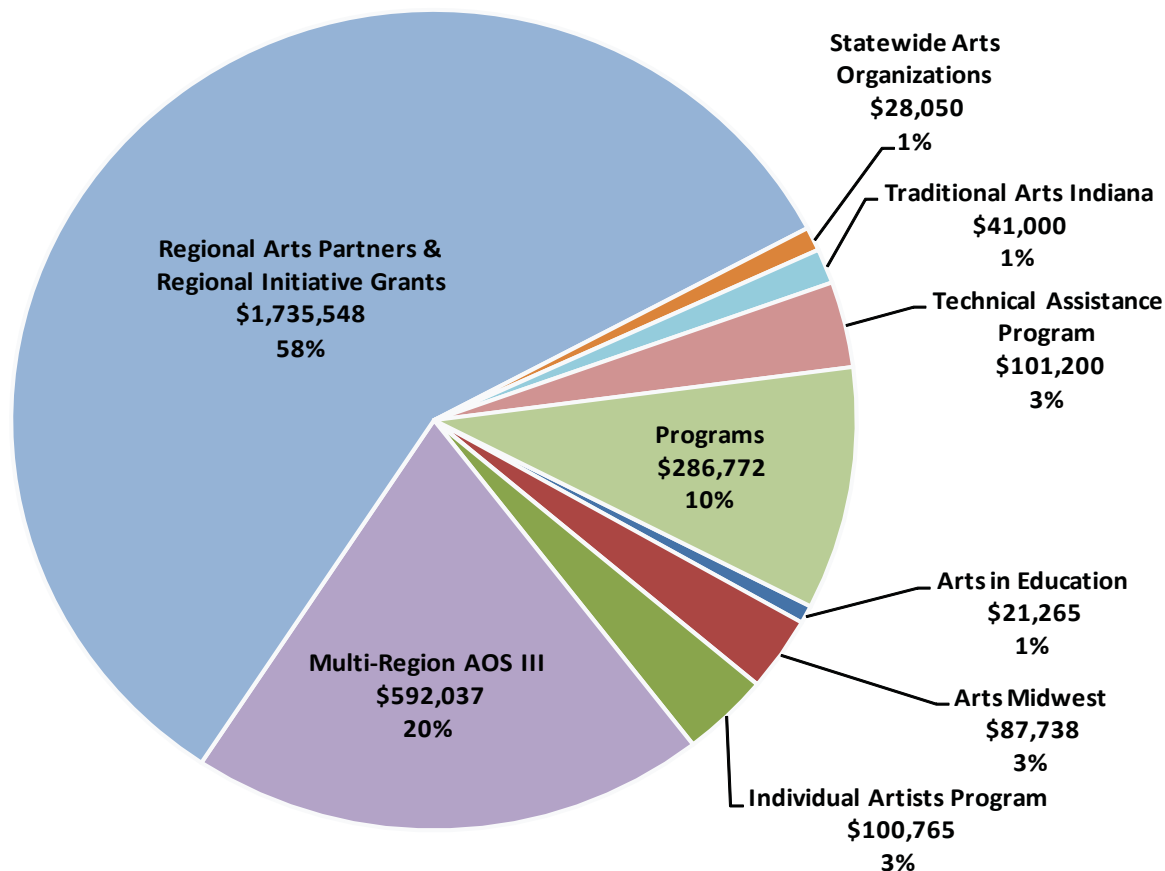

Regional Arts Partnership

A key IAC partnership program, the Regional Arts Partnership is the cornerstone of the IAC's efforts to enhance service delivery and cultural decision-making at the local level. Through this partnership, arts providers have better access to IAC services and increased public awareness and advocacy for the arts at the community level. A significant portion of the IAC's granting budget goes to the Regional Arts Partnership. Each region receives administrative funds to provide services and a Regional Initiative Block Grant for regranting to cultural providers within their region. For more information, visit: www.IN.gov/arts/2482.htm.

Indiana State Poet Laureate

Created by legislative directive, the Indiana State Poet Laureate program brings poetry and the power of the written and spoken word to Hoosiers of all ages. The program provides a framework for the development of specific educational programming coordinated between the Indiana Arts Commission and the State Poet Laureate. It also charges the IAC with coordinating the selection process for the State Poet Laureate. The Poet Laureate serves a two-year term and is provided with a small stipend. For more information, visit: www.IN.gov/arts/2393.htm.

Fiscal Year 2011 State Overview

Art Investment FY2011

Total IAC Investment: | \$2,994,375

"The IAC IAP grant is an invaluable artist resource. The IAP grant offers acknowledgement, validation, and recognition of an artist's work by a panel of art professionals. The awards have encouraged a pursuit of professional goals, helped to open doors, provided new direction and accomplishment, as well as empowered a greater voice within my work."

"The funds we receive from Arts Illiana (through the IAC) helps us turn our series of free concerts into concert events for the whole family in a beautiful park setting. Support from the IAC/Arts Illiana helps us provide the extras that make a concert a truly engaging experience, including books for young people, interesting information, and educational materials."

"Bugs Bunny at the Symphony was a milestone for the Anderson Symphony Orchestra, as we are the smallest orchestra (budget and geographically) to present this world-renown concert. We had over 2,000 attend and so many children come experience their first symphony event. The ASO also was able to donate tickets to the underserved."
