This is in support of Co-Op rule 32.1

\*Note

Keep Indiana's money in Indiana, Total Wine should have never been allowed in the state, and Private Investment Groups or Firms are what should be made illegal. We pride ourselves on local economy in this state, and these people trying to do away with co op only have corporate interests in mind and do not give back to the state, hold the values of this state, and they definitely don't enrich our state.
