

Guide to Cattle and Bison Official Identification in Indiana

You must provide a premises ID number when ordering tags.

Official ID tags must bear the US shield and be readable visually and electronically.
Tags are available in many styles from many suppliers; specify official EID when ordering.

Official 840 EID Tags: Visual and Electronic Readability

Full Duplex 840 RFID Button Tag

- Shorter read range (13" to 16")

Half Duplex 840 RFID Button Tag

- Longer read range (15" to 18")
- Less interference from lights, electronics
 - Ideal for dairy farms

All-in-One 840 Tag

- Button and bangle set or matched set of bangles (one visual; one EID)

Metal Clip Tag with EID

- Traditional style with EID included

USDA Program Tags: Visual and Electronic Readability

Orange Calfhood Vaccination 840 EID Tag

- Available only through licensed and accredited veterinarians
- Plastic button or metal clip with EID
