*****************************************************************************
The next meeting of the Board is tentatively scheduled for June 7, 2016, in Indianapolis, Indiana.
I. CALL TO ORDER

The Board for Proprietary Education met in regular session starting at 10:00 a.m. at 101 West Ohio Street, Kent Weldon Board Room, with Chairman Dr. Ken Sauer presiding.

II. ROLL CALL OF MEMBERS AND DETERMINATION OF A QUORUM

Members Present:
Rod Haywood, Jr., Ken Konesco, Eric Ogle, Joe Pearson, and Dr. Ken Sauer.

Members Absent:
None

Members Present by Conference Call:
None

Guests Present:
Alan Bacon, Tricia Berry, Jeff Biltz, Miranda Brand, Michael Crowley, Kelly Karki, Shawntel Landry, Jose Martinez-Diaz, Bryon Neff, Timothy Pardue, Josh Pritchard, Sara Sander, Lee Tincher, Amber Nicole Ying.

It was determined that there was a quorum for the December 8, 2015 Board meeting.

III. CONSIDERATION OF THE MINUTES OF THE SEPTEMBER BOARD MEETING

The Board for Proprietary Education approved the Minutes of the September 8, 2015 meeting.

Mr. Ken Konesco moved for acceptance and Joe Pearson seconded the motion. The motion was unanimously approved.

IV. EXECUTIVE DIRECTOR’S REPORT

Dr. Ken Sauer notified the Board members that Kimberly Perkins had resigned as a Board member. He complemented Ms. Perkins on her membership with the Board since inception.

Dr. Ken Sauer informed the Board that Kaplan College at Hammond and Indianapolis had been purchased by Education Corporation of America. As a result of the new ownership, Kaplan College at Hammond and Indianapolis will be renamed Brightwood College on January 8, 2016.

Dr. Ken Sauer updated the Board on the drafted BPE rules. He stated that BPE is waiting for the formal exemption from the Office of Management and Budget (OMB).

Dr. Ken Sauer told the Board that he had done an interview with Indianapolis radio talk show host Amos Brown. The interview centered on students attending proprietary institutions, and program outcomes. In particular, programs in which a student is required to seek licensure after
graduation in order to be employed.

Dr. Ken Sauer introduced the topic of the class action lawsuit settlement with Education Management Corporation (EDMC); which owns The Art Institute of Indianapolis and Brown Mackie College. As a result of the settlement EDMC must pay Indiana, four other states and the federal government a combined $95.5 million.

DISCUSSION ITEM A: Nursing Licensure Exam Pass Rate Data

Staff Recommendation
For discussion only.

Background
The discussion of nursing licensure exam pass rate data fits into two broad strands of Commission for Higher Education/Board for Proprietary Education activity and interest: return on investment and consumer protection.

With respect to the former, the Commission has produced many reports that are intended to provide students with information about the outcomes, especially those relating to employment and earnings, a graduate of a particular program might realize, so that the prospective student can make a more informed decision about where to enroll, where to invest the time and money required to complete a degree. Since someone graduating from a nursing program must also become licensed in order to practice their profession, a discussion of how well graduates of programs fair on the nursing licensure examinations can help to inform the prospective student about their potential return on investment.

The Board for Proprietary Education, as well as its predecessor agency, has had a strong emphasis on consumer protection. The recent closing of Indiana Dabney University, which offered a nursing program, and whose students were greatly disadvantaged by its closing, provided the impetus for this broader review of pass rates on the nursing licensure exams.

The pass rate data for this discussion comes from the Indiana State Board of Nursing, which receives data on individuals who took one of two licensure examinations in Indiana: (1) the NCLEX-RN exam, which is one of the requirements to become licensed as a Registered Nurse (RN) in Indiana or (2) the NCLEX-PN exam, a requirement to become a Licensed Practical Nurse (LPN or PN, for short) in Indiana. NCLEX stands for the National Council Licensure Examination, a product of the National Council of State Boards of Nursing (NCSBN). Graduates of Associate of Science in Nursing (ASN) or Bachelor of Science in Nursing (BSN) accredited programs seeking to become RNs take exactly the same NCLEX-RN examination.

Program Description  
School counselors are professionals embracing the role and responsibilities of an advocate for change within the dynamic setting of a K-12 environment. This program is designed for experiential learning, through the exploration of counseling theories and models embedded in real contexts which challenge current understandings. By examining values, beliefs, and attitudes; and through the use of standards and principles, learners engage in activities to enhance leadership and collaboration which shapes the culture and dynamics of the school environment.

Program Rationale  
According to the Indiana School Counselor Association, Indiana currently ranks 44th nationally in the ratio of counselors to students. Nationally, the U.S. Department of Labor indicates 248,000 school counseling jobs were available in 2004, 262,300 available in 2012, and is projecting a need of an additional 31,200 by 2022 due to a 12% increase in demand.

In addition to providing a variety of social and emotional support for students, and responding to the need for intervention and prevention of bullying and other school violence situations, counselors are charged with student scheduling and a variety of other academic issues.

At the high school level, nearly 20% of all incoming freshman are required to take remedial courses (Complete College America, 2012) which are scheduled by school counselors. Effective school counselors will need to be in place in order to provide support critical for student success.

With Indiana now requiring high schools to offer at least two dual credit courses for students, and dual credit enrollment expanding nationally from 12,000 to 30,000 students in a three-year span between...
2011 and 2014, there will be an increased need for school counselors who are qualified to effectively schedule and support students, teachers, administrators, and parents through the challenges of successfully managing the more complex requirements.

As schools continue to experience increasing enrollments of diverse student populations with unique academic, social, and emotional needs, school counselors must demonstrate the ability to identify, comprehend, analyze, synthesize, and evaluate the basic principles, fundamental concepts, and essential content defined in state standards, and to apply that knowledge to the tasks of serving diverse populations of students in educational settings.

For example, to help meet the national STEM focus, school counselors are important. According to U.S. Census Bureau, statistics indicate only 6% of African-American, 6.5% Hispanic, and 14.5% of Asians are currently employed in STEM areas in contrast to 71% white. The disparity in STEM spills over across gender lines as well, with only 22% of female graduate students in engineering and 25% in computer sciences leading to represent 26% of STEM employees in the workforce during 2011 (Landivar, 2013). Balancing the issues of equity and accessibility in schools across the nation will depend heavily on qualified school counselors, who are effective in promoting and communicating educational opportunities while guiding students and their families.

As accountability standards for schools continue to rise in conjunction with growing social and emotional needs of students and school communities, licensed school counselors who can effectively embrace the role and responsibilities of serving as an advocate for positive change within their dynamic and diverse K-12 settings will play a critical role in the overall level of academic, social, and emotional health of students. Furthermore, their support will enable diverse student populations to experience higher levels of postsecondary college and career readiness.

The effectiveness of school counselors depend on their exposure to experiential learning prior to setting foot on campus. This can be done through the exploration of counseling theories and models embedded in real contexts which challenge current understandings. Ultimately, aspiring school counselors who embrace the examination of values, beliefs, and attitudes through the use of standards and principles, and have engaged in activities to enhance leadership and collaboration, will be able to effectively assist school leaders, teachers, students, and the school community in shaping the culture and dynamics of the school environment.
Program Outcomes

1. Evaluate key components of a school counseling program formulated from results-based processes which analyze individual and responsive services, direct and indirect student services, and approaches to collaboration and consultation strategies.
2. Establish foundational philosophies and principles to deliver effective individual, group, and classroom guidance, serving a range of critical issues by assessing, designing, and creating planned engagement.
3. Utilize foundational knowledge and understanding of theories and models to shape interaction, relationship building, and application of techniques and strategies as a means to influence change.
4. Demonstrate appropriate attitudes through the use of essential abilities and skills required for the roles and responsibilities of a school counselor including integrating the knowledge of human growth and development by planning, developing, and implementing appropriate levels of interaction for children and adolescents.
5. Integrate the knowledge of human growth and development by planning, developing, and implementing appropriate levels of interaction for children and adolescents.
6. Establish assessable methodologies to engage individuals, groups, and classes in direct experiences relevant to life.
7. Design ways to assess, counsel, and inform stakeholders of historical, present, and future issues and concerns influencing current choices and behaviors.
8. Apply and model ethical standards framed by principles integral to the counseling profession which ensures and promotes academic achievement, career potential and planning, and individual development on a personal and social level.
9. Select techniques and strategies to empower diversity in perspectives, understanding of cultural and social characteristics as an avenue to identify and eliminate barriers to personal and social interaction.
10. Engage in activities demonstrating a commitment to personal and professional growth within the field of school counseling.
11. Utilize a systems approach to program analysis and evaluation, conceptualizing ways to integrate theories, models, and strategies which measure outcomes, assess the value of intervention, and use of technology while promoting relationships.
12. Demonstrate the ability to manage, direct, deliver and report on program components supporting academic achievement, career development, and personal/social qualities essential for learning, occupational planning, and relevant lifespan values.

**State Licensure**

Does a graduate of this program need to be licensed by the State to practice their profession in Indiana and if so, will this program prepare them for licensure? **YES**

If so, please identify

- The specific license(s) needed: School Counselor
- The State agency issuing the license(s): Indiana Department of Education

**Professional Certification**

What are the professional certifications that exist for graduates of similar program(s)? **National Certified School Counselor (NCSC)**

Will a graduate of this program be prepared to obtain national professional certification(s) in order to find employment, or to have substantially better prospects for employment, in a related job in Indiana? **Yes**

If so, please identify

- Each specific professional certification: National Certified School Counselor
- The national organization issuing each certification: National Board for Certified Counselors

Please explain the rational for choosing each professional certification: National Counselor Examination for Licensure and Certification leverages academic preparation with experience in counseling as one voluntarily meets national standards for a specialty certification.

Please identify the single course or a sequence of courses that lead to each professional certification? **All courses in this program are required to effectively pass the national examination and document the required practicum and internship hours.**
Professional Industry Standards/Best Practices

Does the program curriculum incorporate professional industry standard(s) and/or best practice(s)? Yes

If so, please identify

The specific professional industry standard(s) and/or best practice(s): American School Counselor Association, National Board for Professional Teaching Standards, and Council for Accreditation of Counseling and Related Education Programs.

The organization or agency, from which the professional industry standard(s) and/or best practice(s) emanate:

Council for Accreditation of Counseling and Related Educational Programs

Program Accreditation

Does this program need specialized accreditation in order for a graduate to become licensed by the State or to earn a national professional certification, so graduates of this program can work in their profession or have substantially better prospects for employment?

No, it does not require specialized accreditation but American College of Education intends to seek accreditation from the Council for Accreditation of Counseling and Related Educational Programs (CACREP) once the program is launched and we have student data, which is needed to apply for accreditation.

If so, please identify the specialized accrediting agency: See above.

**State Licensure**
Does a graduate of this program need to be licensed by the State to practice their profession in Indiana and if so, will this program prepare them for licensure?

No

If so, please identify
The specific license(s) needed:
The State agency issuing the license(s):

---

**Professional Certification**
What are the professional certifications that exist for graduates of similar program(s)?

- CMA (Certified Medical Assistant)
- CCMA (Certified Clinical Medical Assistant)

Will a graduate of this program be prepared to obtain national professional certification(s) in order to find employment, or to have substantially better prospects for employment, in a related job in Indiana?

Yes

If so, please identify
Each specific professional certification:
The national organization issuing each certification:

- CMA (Certified Medical Assistant) issued by AAMA (American Association of Medical Assistants)
- CCMA (Certified Clinical Medical Assistant) issued by NHA (National Health Association)

Please explain the rational for choosing each professional certification:

- CMA – One of the most widely recognized national certification for medical assistants and has very specific guidelines. The CMA (AAMA) is the only medical assisting certification that requires
graduation from a postsecondary medical assisting program accredited by an accrediting body recognized by the United States Department of Education (USDE) or the Council for Higher Education Accreditation (CHEA).

- CCMA – The CCMA allows our students to have an additional certification for employment, which is cheaper and have less renewal requirements.

Please identify the single course or a sequence of courses that lead to each professional certification?

- For both CMA and CCMA the following courses will lead to certification preparedness:
  a. MAB160
  b. MAG160
  c. MAP160
  d. MAR160
  e. MAY160
  f. MAX290

Professional Industry Standards/Best Practices

Does the program curriculum incorporate professional industry standard(s) and/or best practice(s)?

Yes

If so, please identify

The specific professional industry standard(s) and/or best practice(s):

- In the MA field the following are the most relevant skills for a graduate to be employed as a Medical Assistant which are taught in the our program:
  - Human anatomy, physiology, and pathology
  - Medical terminology
  - Keyboarding and computer applications
  - Recordkeeping and accounting
  - Coding and insurance processing
  - Laboratory techniques
  - Clinical and diagnostic procedures
  - Pharmacology
  - Medication administration
  - First aid
  - Office practices
  - Patient relations
  - Medical law and ethics

- Preparing students for the completion of a certification exam that allows for more employment opportunities under the EHR “Meaningful Use” regulations.

10/15/2015
The organization or agency, from which the professional industry standard(s) and/or best practice(s) emanate:

- The program curriculum courses are recommend by the AAMA
- Meaningful Use is a mandate by the CMS
Program Accreditation
Does this program need specialized accreditation in order for a graduate to become licensed by the State or to earn a national professional certification, so graduates of this program can work in their profession or have substantially better prospects for employment?

If so, please identify the specialized accrediting agency:

The Medical Assistant diploma program offered at the school is currently accredited by Accredited by the Accrediting Bureau of Health Education Schools (ABHES). Students entering the Medical Assistant degree program will first complete the Medical Assistant diploma program and will have completed an ABHES accredited program, and thus available for any specialized licensing that requires programmatic accreditation.

Transferability of Associate of Science Degrees
Since CHE/BPE policy reserves the Associate of Science designation for associate degrees whose credits apply toward meeting the requirements of a related baccalaureate degree, please answer the following questions:

Does a graduate of this A.S. degree program have the option to apply all or almost all of the credits to a related baccalaureate degree at your institution?

If so, please list the baccalaureate degree(s):

- No, Brightwood College does not offer a baccalaureate degree at this time.
