Community Needs Assessment: Results

The first step in developing an effective substance use and misuse reduction plan is to assess your community. A community assessment tells you about your community's readiness to implement prevention, treatment, and justice-related programs to address substance use and misuse. An assessment also provides an overview of the risk and protective factors present in the community, helping your coalition plan more effectively.

Community Risk and Protective Factors

Use the list of risk and protective factors to identify those present in your community. Identify the resources/assets and limitations/gaps that exist in your community related to each. The lists are not all-inclusive, and others may apply.

Risk Factors Examples: trauma and toxic stressors; poverty violence; neighborhood characteristics; low neighborhood attachment; community disorganization; community norms and laws favorable toward drug use, firearms, and crime; availability of alcohol and other drugs; weak family relationships; family substance use; peer substance use; mental health problems; families moving frequently from home to home; limited prevention and recovery resources.

Protective Factors Examples: strong family relationships; neighborhood economic viability; low childhood stress; access to health care; access to mental health care; community-based interventions; restricted access to alcohol and other drugs including restrictive laws and excise taxes; safe, supportive, and connected neighborhoods; meaningful youth engagement opportunities; local policies and practices that support healthy norms and child-youth programs; positive connection to adults.¹

Risk Factors	Resources/Assets	Limitations/Gaps
1. Norms, customs & policies that permit or promote substance abuse	1. Drug Free DeKalb County 2. Law Enforcement public education initiatives 3. County courts have implemented Veteran's Court	1. Community awareness & education programs are insufficient 2. Lack connections to employers & other key players 3. Resources to effectively combat normalization of ATOD use.
2. Actual and perceived availability and use of ATOD's	1. School resources officers active in all school districts 2. Safe Schools/School Safety programs 3. Community programs that promote alcohol free activities	1. Community outreach and education is limited 2. Media- literacy (resistance to pro-use messages) is lacking 3. Insufficient public education regarding ATOD's & addiction
3. Limited prevention & recovery resources	1. Treatment facilities are actively involved in DFDC coalition 2. All DeKalb County school districts have mental health programs in place for students 3. Schools are willing to collaborate with DFDC partners for prevention programs	1. Shortage of sufficient treatment options 2. Insufficient prevention education in schools 3. Insufficient family support programs

¹Risk and protective factors extracted from IUPUI Center for Health Policy Community Conditions Favorable for Substance Use, April 2018.

Protective Factors	Resources/Assets	Limitations/Gaps
1. Social networks & support systems within the community	1. Diversity of stakeholders/ membership in DFDC Coalition 2. Strong interconnected recovery community 3. Law enforcement is positively engaged in community	1. Lack strong connections to faith based organizations 2. Lack strong connection to employers 3. Lack coordinated outreach system
2. Range of opportunities in the community for youth and family engagement	1. Criminal Justice Programs at high schools 2. United Way Day of Caring & community conversations 3. Community engagement nights i.e., Movies in the Park/ annual softball event/ Serenity House Concert, etc.	1. Lack sufficient outreach to engage youth in prevention efforts 2. Lack of interest/apathy among community members to engage in positive outreach activities 3. Lack sufficient connectors to engage in additional outreach
3. Exposure to evidence based & evidence informed programs, strategies and initiatives for prevention and recovery	1. Mental health providers utilize MRT and other evidence-based treatment options 2. Family Reconciliation Court started 3. Safe Schools/ School Safety programs	1. Lack sufficient prevention programs for youth 2. Lack of community awareness of effective strategies/resources 3. Insufficient access to ATOD training opportunities

Making A Community Action Plan

Now that you have completed a community assessment and have identified the risk and protective factors that exist, you can develop a plan of action. The Comprehensive Community Plan (CCP) is a systematic and community-driven gathering, analysis, and reporting of community-level indicators for the purpose of identifying and addressing local substance use problems.

Step 1: Create problem statements, and ensure problems statements are in line with statutory requirements

Step 2: Ensure your problem statements are evidence-informed, then prioritize

Step 3: Brainstorm what can be done about each

Step 4: Prioritize your list, and develop SMART goal statements for each

Step 5: List the steps to achieve each goal

Step 1: Create + Categorize Problem Statements

Create problem statements as they relate to each of the identified risk factors.

Risk Factors	Problem Statement(s)
1. Norms, customs & policies that permit or promote substance abuse	1. Excessive drinking rates continue to be a problem in DeKalb County 2. Community understanding of addiction and the use of ATOD's is a problem in DeKalb County 3. Community understanding of the economic and community impact of ATOD's use is a problem in DeKalb County
2. Actual and perceived availability and use of ATOD's	1. ATOD use & abuse by youth and adults is a problem in DeKalb County 2. Perceived peer use of ATOD's is higher than actual reported use in DeKalb County 3. Community understanding of addiction and the use of ATOD's is a problem in DeKalb County
3. Limited prevention & recovery resources	1. Availability of treatment & recovery options for individuals and families is a problem in DeKalb County 2. Availability of effective prevention programs for youth continues to be a problem in DeKalb County 3. Access to effective intervention & prevention resources continues to be a problem in DeKalb CO.

Step 2: Evidence-Informed Problem Statements

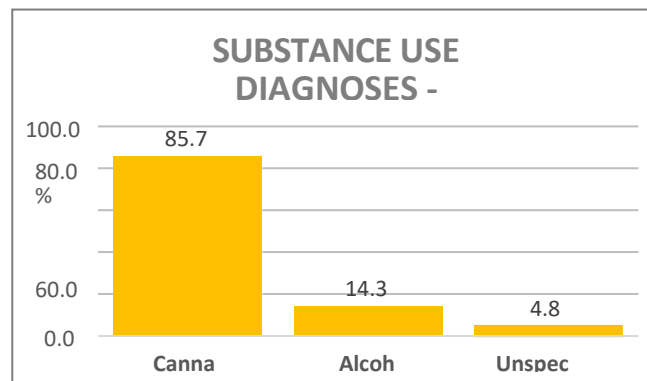

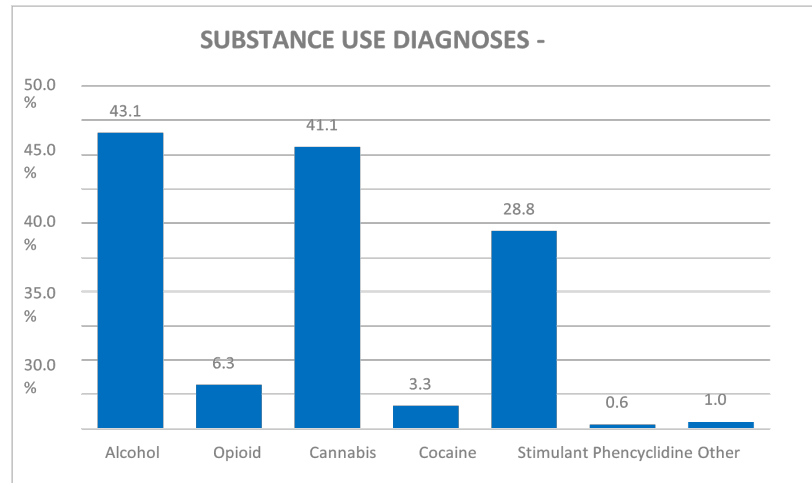

Identify your top three problem statements using local or state data. Ensure that there is a problem statement for each co-equal funding category (e.g., prevention/education; intervention/treatment; and criminal justice services and activities).

Step 3: Brainstorm

Consider the resources/assets and limitations/gaps that were identified for each risk factor, and list what actions can be taken for each identified problem statement.

Problem Statements	What can be done (action)?
1. ATOD use & abuse by youth and adults is a problem in DeKalb County	1. Support the law enforcement needs and activities to reduce access to alcohol for youth, detect impaired drivers, and other efforts to reduce alcohol and drug problems in the county 2. Support alternative activities for youth 3. Support public and social service agencies that work with youth to identify and reduce risk factors that contribute to ATOD use in youth
2. Community understanding of addiction and the use of ATOD's is a problem in DeKalb County	1. Support local educational forums to be held on issues related to ATOD 2. Support drug testing efforts for identification of drug use in DeKalb County 3. Raise Mental Health Awareness and its relation to substance abuse
3. Access to effective intervention and prevention resources continues to be a problem in DeKalb County	1. Support programs & organizations that provide treatment and recovery services in DeKalb County 2. Support prevention education programs provided through schools and other community organizations 3. Support programs that delay or prevent the first use of ATOD

- **Step 4: Develop SMART Goal Statements**

- *For each problem statement, prioritize your list of what can be done. Choose your top two actions for each. Then, develop goal statements that demonstrate what change you hope to achieve and by when you hope to achieve it.*

Problem Statement #1
<p>Goal 1 DFDC will increase understanding of IN laws related to ATOD use by 5% by 6/2026 as measured by annual responses to related questions in the DeKalb County Community Survey utilizing 2022 survey as baseline data.</p>
<p>Goal 2 DFDC will increase the number of adults in DeKalb County obtaining treatment & recovery services by 5% by 12/2026 measured by local treatment center and recovery homes year-end annual service numbers.</p>
Problem Statement #2
<p>Goal 1 DFDC will increase access to naloxone/Narcan through a minimum of 2 Addiction/Narcan Trainings in DeKalb County and evaluation of current and potential Naloxone Box locations in DeKalb County to determine gaps &/or need for relocation of boxes by 6/2026.</p>
<p>Goal 2 DFDC will increase annual ATOD's education/ messaging reach to diverse community members by cultivating new partnerships to include area chambers of commerce to expand the reach of our PAW (Parents at Work) outreach and hosting/co-hosting/participating in a minimum of 2 community/agency education programs including CIT (Crisis Intervention Training) for first responders by 6/2026.</p>
Problem Statement #3
<p>Goal 1 DFDC will reduce the number of individuals responding, "I would not know who to contact" to our DFDC survey question "Whom would you contact if you or someone you know had a drug/alcohol problem/substance abuse disorder?" to under 10% by 6/2026.</p>
<p>Goal 2 DFDC will continue to work with 3 DeKalb County public school districts to review current vaping policies and adopt policies/processes that include vaping education and referral to mental health services as an alternative to out of school suspension/expulsion if policies do not currently allow those alternatives and assist in implementing promising solutions for vaping issues by 6/2026.</p>

Step 5: Plans to Achieve Goals

For each goal, list the steps required to achieve each

Problem Statement #1	Steps
<p>Goal 1</p> <p>DFDC will increase understanding of IN laws related to ATOD use by 5% by 6/2026 as measured by annual responses to related questions in the DeKalb County Community Survey utilizing 2022 survey as baseline data.</p>	<p>1. ***Drug Free DeKalb County continues to be in a rebuilding process. Drug Free DeKalb funds were frozen and unavailable for distribution for a period of time to resolve a former IRS issue which has resulted in excess funds (more than one year) in the account. In 2018 DFDC was able to begin distributing funds again. DFDC is working to assure that available funds are expended in a fiscally responsible manner as approved from the DeKalb County Commissioners. 12/31/24 fund balance of \$71,246.47 includes \$31,742.13 of offender fees collected in 2024 and \$39,504.34 of funds that remained from previous collections.**
