Email: trishahanes_wcdc@yahoo.com

County Commissioners: Brian Hauptert
Address: 1 W. Hill Street
City: Wabash, IN
Zip Code: 46992

Plan Summary

Mission Statement:

The mission of Wabash County AACTION is to identify the needs of the area regarding alcohol, tobacco and other drug use and abuse, monitor programs which are recipients of Drug Free Indiana monies, and act as a resource in Wabash County for alcohol, tobacco and other drug information.

History:

In 1989 the Governor of the State of Indiana founded the Governor's Commission for a Drug-Free Indiana. Under this statute each county was to form or appoint an organization to act as a Local Coordinating Council. This Council was to have representation from the following areas: Youth Parent, Religion, Civic Organization, Law Enforcement, Judiciary, Local Government, Treatment, Medicine, Business, Media, Education, Self-Help, and Labor. This council would be given the responsibility of administering the local drug-free funds. These funds are raised, by statute, through fines levied by the courts for those convicted of drug and alcohol offenses.

Of the local drug-free monies collected, one-fourth goes to the State for administration of the program and the rest stays in the county where collected. The funds are administered by county government. The Local Coordinating Council (LCC) is responsible for seeking grant applications and recommending funding of local programs to the County Commissioners and County Council, who then approve the funding of these programs with the drug-free monies.

Each year the LCC writes a grant for drug-free money to fund the operation of the council. Since the monies are limited the amount available for operation is also limited.

In 1999, the Wabash County LCC decided that they would like to be able to apply for grants from other sources to help fund programs and informational materials they would like to develop. They also found that the name LCC was hard to explain and decided to change the name of the organization to be more descriptive of the function. The name was changed to Wabash County WASA (Working Against Substance Abuse) and in 2000 the group was incorporated as a 501 © (3) not-for-profit organization. An organization chart was developed with the LCC as a committee to do the functions of the drug-free Indiana statute. A budget was developed with part designated for a drug-free monies grant and part to be funded by other sources.

A grant was written in 2000 to the Community Foundation of Wabash County for monies to purchase office equipment and set-up an office in a business location. This grant was approved and an office was established at 17 East Main Street, Wabash.

In 2001 WASA started the application to be the lead agency for the Tobacco Settlement dollars. This grant was given by the State of Indiana to one agency in each county. In June 2002 WASA received \$53,800 for programs dealing with tobacco. The grant is an annual

grant in that amount for two years with the possibility of another two years if the State Legislature continues to fund the program.

In the fall of 2003, WASA, Inc. modified their organizational structure to include a self-appointing executive board. The LCC was made a committee under this board with non-voting representation to the board. Following a series of meetings a decision was made by the WASA executive board to discharge the LCC committee from WASA, Inc. WASA, Inc. retained all functions dealing with the Tobacco Settlement.

A group of interested community members were gathered to restructure a new LCC. The by-laws for this new organization, Wabash County LCC, were adopted in December 2003 and approved by the state.

In June 2004 Wabash County LCC adopted the name of Wabash County AACTION (Against Alcohol, Controlled Substances and Tobacco In Our Neighborhoods).

The elected officers for 2011 are:

Chairperson	Trisha Hanes, Wabash County Probation Department
Vice Chairperson	Helen Chambers, Hands of Hope / Family Service Society
Secretary	Jessica Brown, Otis R. Bowen Center
Treasurer	Donna Bogert, Youth Service Bureau

Summary of the Comprehensive Community Plan:

During 2011, Wabash County AACTION continued to compiling statistical data, as it applies to ATOD issues in Wabash County. Data was compiled from Wabash County agencies. The 2011 Comprehensive Plan, completed in 2012, became an overwhelming task to compete for our agency due to changes at the State level and lack of a consultant being present every our local meetings. The Consultant seemed to put a face to the State agency. No elected officer receives financial compensation for their duties; thus, it has been increasing difficult to motive officers to perform additional duties. Therefore, the vast majority of the Comprehensive Plan is completed by the chairperson. However, because of a strong commitment to Wabash County, the Comprehensive Community Plan was completed.

Membership List

County LCC Name:

#	Name	Organization	Race	Gender	Category
1	Nancy Alspaugh	Manchester Juniot/High School	Caucasian	Female	Education
2	Sandra Boone	Southwood High School Peers Educating Peers	Caucasian	Female	Education

Problem Identification

A. Problem Statement #1: In Wabash County, youth and adults use or abuse alcohol.

B. Supportive Data:

- 81 of the 156 (51.9%) individuals who completed needs assessment racked the alcohol problem in Wabash County as a four (4) or five (5) on a five (5) point scale.
- 102 of the 156 (65.4%) individuals who completed needs assessment agreed with the statement, “Youth perceive Alcohol, Tobacco and Other Drug use as harmless” at a level of “Somewhat” or above.

Prevention/Education

Prevention/Education

- The Wabash County AACTION survey was developed for implementation in 2012.
- A total of **727 Manchester College students** attended the yearly seminar in the fall of **2011** designed to educated students on the dangers of abuse/misuse of alcohol and chemical substance. Furthermore, an unknown number of the Manchester College faculty, staff and community members attended as it was open to the public.
- All three school districts in Wabash County have student assistance programs.
- During the entire year of school year 2010/2011, of the **299 youth suspended county wide, 50 involved tobacco, alcohol or drug possession.** Data is compiled in complete school year and unable to be broken down.
- In **2011, 76** on line alcohol or Marijuana course registrations were purchased for use by those students who encounter drug or alcohol offenses while a student at Manchester College.
- Tobacco Free printed **452** “Toilet Talks” were printed and disturbed to various schools and is estimated to reach **2,945** students. “Toilet Talks” is an informational pamphlet with statistical data of ATOD and are placed in restroom stalls in schools and other facilities.

Treatment/Intervention

- Wabash County has 1 Al-Alon, 2 NA and 31 AA meeting per week.
- The Wabash County Probation Department administered **1318** urine drug screens to **499** adult felony, **444** misdemeanor and **83** juvenile offenders in **2011** in an attempt to prevent the use of any drugs or alcohol and to ensure compliance with the order of the Court. Tests which were positive were as followed:

<u>Drug Class</u>	<u>Number of Specimens</u>	<u>Number of Positive Specimens</u>	<u>Percentage</u>
Amphetamines	1318	35	2.66%

Barbiturates	1318	3	0.23%
Benzodiazepines	1318	23	1.75%
Cocaine	1318	1	0.08%
Designer Stimulants	72	9	12.5%
Ethyl Glucuronide	185	17	9.19%
Ethyl Sulfate	17	17	100%
Methadone	1318	158	11.99%
Opiates	1318	37	2.81%
Oxycodone	1318	17	1.29%
Synthetic Cannabinoids	30	8	26.67%
THC (Marijuana)	1318	101	7.66%

- The Wabash County Probation Department conducted **94** Bar Sweeps (entering a bar to ensure no current supervised offender is present) and **3299** field visits to ensure compliance with the order of the Court.
- The Wabash County Drug Court administered **930** urine drug screens to **31** different Drug Court participants in **2011** in an attempt to prevent the use of any drugs or alcohol and to ensure compliance with the order of the Court. Tests which were positive were as followed:

<u>Drug Class</u>	<u>Number of Specimens</u>	<u>Number of Positive Specimens</u>	<u>Percentage</u>
Amphetamines	930	2	0.22%
Barbiturates	930	0	0%
Benzodiazepines	930	9	0.97%
Cocaine	930	1	0.11%
Designer Stimulants	57	2	3.51%
Ethyl Glucuronide	105	5	4.76%
Ethyl Sulfate	5	5	100%
Methadone	930	18	1.94%
Opiates	930	11	1.18%
Oxycodone	930	1	0.11%
Synthetic Cannabinoids	11	2	18.18%
THC (Marijuana)	930	14	1.51%

- The Otis R. Bowen Center provided **67 groups** sessions to Wabash County individuals.
- The Otis R. Bowen Center treated clients for the following conditions in **2011**:
 - **Alcohol Abuse** **43**
 - **Alcohol Dependence** **22**
 - **Alcohol Dependence, in remission** **1**

- Hands of Hope, a division of Family Service Society, continues to encounter both victims and abusers who use or abuse alcohol and/or drugs

In **2011**:

- Alcohol (abuser) **6**

Law Enforcement/Justice

- Law Enforcement agencies within Wabash County made the following arrests related to alcohol in **2011**:

- Public Intoxication **75**
- Minor Consuming Alcohol **76**
- Open Alcoholic Container **5**
- Operating a Vehicle While Intoxicated **95**
- OVWI Under 21 **3**
- OVWI Previous Conviction **16**
- OVWI Resulting in Death **0**
- Furnish Alcohol to a Minor **1**

End of Year 1 Update:

End of Year 2 Update:

Final Update (end of Year 3):

C. Goals:

1. Fewer youth and adults will use and/or abuse alcohol. This will be measured by monitoring the baseline supportive date as well as the annual benchmarks.
2. Youth in Wabash County will receive ATOD information and participate in ATOD alternative activities. Measurements will be obtained by data collected by the After Proms, Wabash County Tobacco Free Coalition and Manchester University.

End of Year 1 Annual Benchmarks:

End of Year 2 Annual Benchmarks:

Final Report (end of Year 3):

D. Objectives:

1. **Prevention and Education**

- A. Improve and increase prevention/education programs provided by the schools and other community organizations with an emphasis on proven prevention strategies and curriculum.
- B. Increase general public awareness of local issues related to alcohol use, as well as efforts and programs to reduce alcohol use and/or abuse in our community.
- C. Address the issue of binge drinking and alcohol consumption by minors.
- D. Implement a social norms education campaign within community.
- E. Reduce access to alcohol by working with alcohol providers to card, to limit alcohol marketing and to educate parents about the consequences of hosting parties, and/or the problems associated with the accessibility of alcohol in the home.
- F. Recruit and train new LCC members with an emphasis on youth involvement.
- G. Increase protective factors in an effort promote healthy behaviors among youth.

2. Treatment and Intervention

- A. Increase protective factors in an effort promote healthy behaviors among youth.
- B. Identify adults and youth with addictions earlier and refer those individuals to treatment
- C. Continue to advocate and support interventions program for youth and families.
- D. Continue to advocate and support interventions

3. Law Enforcement and Justice

- A. Advocate and support appropriate training and programs for local police officer and justice agencies to address crimes that involve and/or are alcohol related.
- B. Continue to advocate and support aggressive enforcement of impaired drivers through saturation patrols.
- C. Continue to advocate for clear consistent consequences for all offenders.
- D. Continue to advocate and support intervention programs for adult substance offenders.
- E. Continue to advocate and support intervention programs for victim of abuse.

End of Year 1 Update:

End of Year 2 Update:

Final Update (end of Year 3):

A. Problem Statement #2: In Wabash County, youth and adults use marijuana and Tobacco.

B. Supportive Data:

- 91 of the 156 (58.3%) individuals who completed needs assessment ranked the marijuana problem in Wabash County as a three (3) or higher on a five (5) point scale.
- 103 of the 156 (66%) individuals who completed needs assessment agreed with the statement, “Wabash County has a drug problem” at a level of “Somewhat” or above.

Prevention/Education

- The Wabash County AACTION survey was developed for implementation in 2012.
- A total of **727 Manchester College students** attended the yearly seminar in the fall of **2011** designed to educate students on the dangers of abuse/misuse of alcohol and chemical substance.
