

UAS-Based Data Processing Center for Crash Scene Mapping Mission Planning Hands-on Workshop

April 27, 2023

9:00 a.m. – 2:30 p.m. Eastern

Ross Hills Park

8815 W 50 S, West Lafayette, IN

<https://goo.gl/maps/EZ3j771TWiivTtq1A>

This workshop will provide information about crash scene marking, mission planning, hands-on flight exercises, and an overview of the Purdue UAS Data Processing Center funded by the Indiana Criminal Justice Institute. View this short video for a summary of the UAS-Based Crash Scene investigation process: https://youtu.be/ie_ARALu4YA

Mission Planning Workshop Agenda

9:00 – 10:30 am.	Introductions and UAS Mapping Overview Field Procedures and Protocols, Mission Planning, Flight Operations
10:30 – 10:45	Break
10:45 – 11:15	UAS Mission Planning
11:15 – 12:15	UAS Flights
12:15 – 13:00	Submission Process and Working Lunch - provided
13:00 – 14:30	Additional UAS Flights and Wrap-up

Participants are encouraged to bring their UAS systems for the mission planning and flying exercises. Purdue will provide UAS systems for demonstration purposes.

Complete information at the link below to register for the workshop and provide information on your departmental UAS systems. Registration is requested by April 21 so we can prepare training materials and finalize mission planning exercises.
