Deliverables	Measures	Activities
Community Awareness & Outreach Through community awareness and outreach, we will reduce barriers that prevent child and adult survivors of sexual violence from accessing supportive services and justice, ensuring access to healing resources across our seven-county rural service area.	Community Awareness & Outreach 1. Agency will provide four community-based awareness events designed to increase understanding of sexual violence, available services, and survivor rights among professionals and community members in rural areas by end of grant period. 2. By end of grant, agency will note a 10% increase from previous year in contacts or service requests from primary sexual assault victims will be as a result of the community awareness events as tracked through intake forms.	Community Awareness & Outreach 1. This quarter, agency hosted 1 event and passed out 150 informational packets. 2. Agency met with 5 new survivors this quarter which is a 1% increase over previous year's quarter.
Crisis Response & Hospital Advocacy Strengthen and sustain trauma-informed, survivor-centered advocacy for adult, youth, and child survivors impacted by sexual assault across the region by ensuring access to 24/7/365 crisis response, hospital accompaniment, judicial advocacy, and ongoing support that promotes safety, healing, and empowerment for both the survivors and their families.	Crisis Response & Hospital Advocacy 1. SASP funding will help sustain the agency's crisis response, ensuring that 90% or more of hospital calls for advocacy receive an immediate response so that survivors presenting at partner hospitals receive trauma-informed support from a trained advocate. 2. Of survivors who receive SASP-funded hospital advocacy, at least 80% will be offered follow-up contact within 72 hours and ongoing advocacy services, supporting continuity of care and access to additional resources after the initial medical response.	Crisis Response & Hospital Advocacy 1. 100% of hospital calls this quarter received immediate crisis response. 2. 100% of survivors who received services received follow-up contact within 72 hours.
Comprehensive Advocacy SASP-funded advocates will provide direct advocacy and	Comprehensive Advocacy 1. Of survivors who receive SASP-funded advocacy	Comprehensive Advocacy 1. This quarter 50/75 individuals responded to

support services including crisis intervention, safety planning, support group and systems navigations to survivors of sexual assault and their families.	services, at least 75% of those who complete voluntary post-service surveys will report a reduction in feelings of hopelessness and isolation. 2. Advocates will deliver 250 instances of direct advocacy and supportive services by the end of the grant period.	surveys and 100% of those responded reported a reduction in feelings of hopelessness and isolation. 2. This quarter, we provided 75 instances of direct advocacy and supportive services.
