Learn about state expenditures, reserves & liabilities

Local Government
Find financial information about local government & school corporations

Vendors
Review data on businesses business with the State

How to use ITP

A great example of how to use the ITP is locating how much funding your local unit of government receives from the state.

1. Click on Learn More under Local Government on the main ITP web page.

2. Click Learn More under Local Government Distributions.

3. The Local Government dashboard provides an overview of the tax distributions made to local units of government by fiscal year. You can search by County or local unit from the drop-down menu or by using the interactive map to choose the location.
