

RESOLUTION NO. FCR 70-1

BE IT HEREBY RESOLVED THAT WHEREAS, numerous civic organizations and representatives of various governmental agencies have expressed an opinion that there is a need in Floyd County for the construction and maintenance of a field house; and,

WHEREAS, heretofore in the negotiations to induce Indiana University to construct and operate a four year university in Floyd County, Indiana, a moral commitment was made to construct a cultural auditorium for the use and benefit of the University's Floyd County facility as well as other cultural performing arts groups in the City and Floyd County; and,

WHEREAS, the Board of Commissioners of Floyd County has diligently endeavored to secure information and advice concerning the cost of construction and maintenance of a Field House and Auditorium and to provide a means of financing either one or both of said facilities; and,

WHEREAS, the Board of Commissioners of Floyd County has received certain rough estimates as to the cost of such estimates but is totally unable to arrive at a financing plan; and,

WHEREAS, the Board of Commissioners of Floyd County is of the opinion that it does not have the facilities or finances to pursue the efforts in this vein.

NOW, THEREFORE, the Board of Commissioners of Floyd County, without any recommendation or commitment on its part, respectfully requests the New Albany, Floyd County, Indiana Building Authority to proceed in such manner as in its judgment it deems proper to acquire all information and to perform such acts as may be necessary to complete the preliminary planning necessary to determine the feasibility of the construction of the field house and the construction of an auditorium or the construction of a Floyd County Auditorium-Field House complex.

The Board of Commissioners of Floyd County further requests that the findings and conclusions of the New Albany, Floyd County, Indiana Building Authority be made known to the proper governmental agencies and the public at large.
