218 116 394	drain. Repair dumpster so it does not leak. Observed liquid from food waste leaking into the storm drain. This is an Immediately environmental hazards. Storm drain lead directly into water ways. Establishment must take immediately steps to contain waste water. Person-in-charge (PIC) stated they can catch the liquid in containers and dispose of it inside into their mop sink. This must continue until permanent repairs can be made to the dumpster.
