415	X		X	Observed flying insects (gnats) in the warewash area and around trash can used to scrape off plates. Repeat Violation. Observed 2 fly strips on the ceiling near this area that had an accumulation of dead insects. Replace. Ensure any pesticide used is approved for restaurants.	3 days

294	X			Observed the sanitizer hose in the second compartment of the 3 compartment sink instead of the third. When dispensed, the chlorine concentration was measured at 0ppm. Person-in-charge (PIC) stated most dishes and equipment go through dish machine. Large pots that do not fit in the machine must be washed, rinsed and sanitized in the 3 compartment sink. In the bar, there was no sanitizer nearby for the 3 compartment sink. Observed no sanitizer test strips in the bar.	3 days
256		X		Observed no thermometer in the fajita prep cooler. Observed no probe thermometer to check cooling temperatures. The probe thermometer that was located was designed for internal heating temperatures and was not precise enough to measure cooling temperatures. I would recommend a dial thermometer in the cooler and a digital probe thermometer for cooling.	1 week
