CRITICAL ITEMS ARE IDENTIFIED IN THE CHECKLIST AND NARRATIVE COLUMNS MARKED "C"
VIOLATION(S) REPEATED FROM PREVIOUS INSPECTIONS ARE DENOTED IN THE "SUMMARY OF VIOLATIONS" AND IN THE NARRATIVE COLUMN MARKED AS "R"

Section #	C	NC	R	Narrative	To Be Corrected
174		X		Observed an unlabeled spray bottle. Person in charge stated that it contained water. Correction: Any food that is not readily identifiable should be labeled.	Today
218		X		Observed walk-in cooler temperature reading 44F. Correction: Repair cooler so that it can maintain food at or under 41F. Person in charge stated that she had already called to start work on it.	3 days
389		X		Observed trash in the mop sink. Correction: Trash should be stored in appropriate containers to prevent access to pests.	Today
433		X		Observed a mop in a mop bucket containing dirty mop water. Correction: Mops must be hung up to dry. Dirty mop water should be properly disposed of to keep it from attracting pests.	Today
				Observed the mop sink faucet had a line to a chemical dispenser with the faucets left on. The Atmospheric Vacuum breaker on the faucet is not designed for constant pressure. FCHD recommends installing a bleeder valve to the faucet or connecting the dispenser to an independent water line. The hoses may also be disconnected between uses in the meantime.	

Summary of Violations C 0 NC 4 R 0 **4**
