Section #	C	NC	R	Narrative	To Be Corrected
177		X		<p>Observed boxes of recently delivered foods sitting on the floor in the storage area. Correction: food should be stored at least six inches above the floor to protect it from contamination.</p> <p>Observed the mop sink faucet to have a y-valve and be hooked up to a spray hose and chemical dispenser. This could cause a cross-connection and contamination. Only one valve should be opened at a time. Faucet should be turned off and the pressure released after using either the sprayer hose or the chemical dispenser.</p>	Today
