

2009-29

The Martin County Council acting as the establishing unit of government under IC 36-10-2-2 Recreation Facilities and Programs would request that the Martin County Park Board meet in session and forum other than their exificio status as members of the Daviess-Martin Joint Park Board.

The Martin County Park Board would meet under the requirements of IC 36-10-3 General Park and Recreation Law and would have the support of the Martin County Council.

This request is being made due to the recent renewed interest in, but not limited to, the various public and private entities that are engaged in developing Martin County and its resources.
