**MARTIN COUNTY
STATE OF INDIANA**

**APPLICATION TO EXPAND THE TERRITORY OF THE
GREENE COUNTY REGIONAL SEWER DISTRICT**

Comes now Martin County, Indiana, by and through its Board of County Commissioners, and submits to the Greene County Regional Sewer District (the "District"), pursuant to Indiana Code 13-26, its Application to Expand the Territory of the District (the "Application"), and requests that the territory described in Section 1 of the Application (the "Territory") become part of the District.

1. Description of Territory. The Territory to be included in the District is a part of Perry Township, Martin County, Indiana, as is more particularly depicted on the map that is attached to the Application, incorporated herein, and marked for identification purposes as "Exhibit A".

2. Need. There is a need for the Territory to be included in the District in that the current provider, NSWC Crane, will be discontinuing the provision of sewer service to the Territory in the near future, due to the availability of alternative service. If the District is not expanded to include the Territory, Martin County customers may be subject to significant inconvenience, cost, and potential health and safety concerns.

3. Public Benefit. The Applicant has determined that the inclusion of the Territory in the District will be conducive to the public health, safety, convenience, and welfare of the residents of Martin County, Indiana.

4. Inclusion Practical and Feasible. The Applicant has determined that inclusion of the Territory in the District will be both practical and feasible.

WHEREFORE, the Petitioner respectfully requests that the Greene County Regional Sewer District approve the Application and then notify the Indiana Department of Environmental Management of the inclusion of the Territory in the District, pursuant to IC 13-26.

Respectfully Submitted,

Board of Commissioners of Martin County,
Indiana:

I
