Hello Beacon Users,

We are introducing a new feature that we are very excited to share with you.

Beacon now offers Google Street View™ to users when viewing the map. After Street View is enabled (upon request) for your beacon site, you will see a new tool available on the toolbar (icon shown below).

After selecting the tool, users can then select a road on the map, and if Google Street View is available, can view the image in a separate window. If imagery is not available a "restriction" icon will appear .

The Schneider Corporation
Historic Fort Harrison
8901 Otis Avenue
Indianapolis, IN 46216

Toll-Free: 866.973.7100

Direct: 317.826.7100

Fax: 317.826.7200

geogearinfo@schneidercorp.com

If you are interested in having Google Street View™ enabled for your beacon site, we encourage you to see if your community has data available by visiting this site: <http://maps.google.com/?hl=en> once there, drag the orange “Street View Figure” from the zoom tool (on the left of the page), over your location. If you feel that you have data to display, please contact us to discuss your options with Street View.

If at any time you have questions, please do not hesitate to contact us geogearinfo@schneidercorp.com

Thank You!

The Product Development Team
