APPLICATION TIPS AND CRITERIA

****It is the applicant's responsibility to prove the request satisfies all the criteria. ****

The board hearing your request is the White County Area Board of Zoning Appeals, a five-member board. The specific criteria the board must consider when voting on your petition follows. Actions of the Board require a minimum of three votes. Once heard, your request may be continued until an upcoming hearing date, approved as written, approved with conditions, or denied. If your petition is approved, you may proceed with your project (upon obtaining all necessary permits). If your petition is approved with conditions, you must comply with the conditions of the board or face violation fines until you do comply. If your petition is denied, you may not reapply for the same request for a period of one year unless substantially new evidence becomes available. Any decision of the Area Board of Zoning Appeals may be appealed to the White County Circuit or Superior Court.

The effect your request will have on neighboring properties is a strong determining factor. It is important to gather and present all possible neighborhood support before and/or during the hearing. This is a public hearing and anyone in opposition to the request will be allowed to voice that opposition verbally or in writing, before and/or during the hearing. Neighborhood supporters in attendance at the hearing, individual letters or a petition signed by as many supporters in the neighborhood as possible, may prove helpful. Such items of support may be submitted to the Area Plan office in advance or brought to the hearing. Either way, they will be read into public record at the hearing, along with any items received in opposition. The board generally asks questions at the hearing to clarify your particular situation. Please plan to attend the hearing yourself or have a representative attend in your place. The representative attending the hearing should be someone who not only understands your situation completely, but can make a decision should the board ask that the request be amended or modified. Even if no representative attends, the board may elect to vote on your request or table it to a future hearing.

Application Tips and Criteria Continued

A variance can be granted only upon demonstration to the BZA of a practical difficulty in complying with the White County Zoning Ordinance (#5 Burden of Proof). It is highly recommended that you make your case in a letter to the board. Provide as much information as possible and try to explain your situation fully, yet concisely. Your “practical difficulties” in following the strict rules of the ordinance may not be based on economic gain. Remember, you must prove not only the need for a variance, but, also, that the granting of this particular variance will not negatively affect neighboring properties.

The Burden of Proof is not a requirement for special exception use applications; however, it is generally beneficial to the applicant to present as much information as possible to the board so they completely understand the request.

An applicant may request the withdrawal (filing fees are non-refundable) of a petition or the tabling of a petition to a future meeting anytime from the moment the application is submitted until the board calls for a vote. Once the voting process has begun, the applicant must abide by the ruling of the board or appeal the board’s decision to the court.

The Area Plan office reserves the right to cancel any scheduled meeting and reschedule all active petitions to a future meeting. Applicants will be contacted should this occur.

Following is an outline of the procedures of the hearing and conduct protocol during the hearing.
