How Do You Report Child Abuse?

Call the Child Abuse & Neglect Hotline

800.800.5556
Indiana is a mandatory reporting state. Any person who has reason to believe a child is being abused or neglected shall make a report.

Medical professionals, teachers & law enforcement officials have a higher duty to report abuse or neglect.
Call 800.800.5556. An intake specialist:

• Directs caller immediately to 911 or law enforcement if child is in imminent danger.
• Listens/asks questions using intake guidance tool.
• Captures report information.
• Sends report to local county office to determine next steps
Reporting

Intake specialists will ask questions about the child’s current circumstances, safety, & identifying information:

- Names of children involved
- Parent, guardian or custodian’s name
- Substance abuse issues
- Mental health concerns
- Ages of children
- Addresses & phone numbers
- Domestic violence
- Weapons in the home

Always report suspected abuse even if you don’t know the answers to all the questions.
After the call:

- A thorough review of any known previous child protective services history with the family is completed.
- The intake specialist will finish the official intake report.
- Report forwarded to local county office to determine next steps.
Per Indiana law, certain criteria must be met before a family case manager can be dispatched to a home. If criteria is met, a thorough assessment may be called for:

- Immediately/1 hour (imminent danger)
- Within 24 hours
- Up to 5 days

Calls with similar allegations to an open case are referred for follow-up.

• Visit home or place where alleged abuse/neglect occurred.
• Determine if environment is safe for the child.
• Request medical, mental health examinations, substance abuse screens.

Placement Options

Out-of-home care is sometimes needed:

• Relative caregiver
• Foster home
• Group home
• Residential placement
• Psychiatric facility
Children thrive in safe, caring, supportive families and communities.
Safely Home, Families First

• Children are safely at home with services or with appropriate relatives.
• Indiana law requires DCS to consider relative placement before considering any other out-of-home placement.
• National research shows when children are placed with relatives, there are improvements in outcomes, reductions in case length & fewer traumatic effects of removals.
When deciding to remove a child from a home, DCS will:

- Regard the safety of the child as most important.
- Consider whether the parent is amenable to accepting any needed services.
- Encourage the child & family team.
- Utilize information gathered in the assessment.
- Use information gathered in safety & risk assessments.
**Ongoing Case Management**

DCS must make reasonable efforts to preserve and reunify the family in line with Indiana law.

Case management assures child’s safety by:

- Scheduling regular meetings with the family & child.
- Ensuring needed family & child services are received.
- Convening the child & family team.
- Completing court reports.
- Developing a plan for permanency.
- Facilitating parenting time & sibling visitation.
