Report Description

This report uses data collected at the end of the current report month. The graphs and numbers for historical months also use data from the end of the historical month listed.

Count of Sibling Cases – This is the number of open cases as of the end of the report month which have more than one child in out of home placement at the end of the report month.

Cases With All Children Placed Together – This is the number of cases with more than one child in out of home placement where all of the children are placed in the same resource with the same resource ID.

Cases With Placement Exceptions – This is the number of cases in which a child or children were not placed or not placed together in the same resource with the same resource ID. When displayed in blue the user can click on the number and be sent to the **Siblings Placements Exception report** or the associated region.

Percent Placed Together of Sibling Cases– This is the percentage of the number of cases where all of the children in out of home placement are placed together divided by the number of open cases with more than one child in out of home placement as of the end of the report month.

Average Number of Children per Case – This number takes the number of children in out of home placement from cases with more than one child in out of home placement and divides it by the number of cases with more than one child in out of home placement as of the end of the report month.
