ATTACHMENT C
MAKING PURCHASES USING FEDERAL GRANT FUNDS
Federal Procurement and Contracting Requirements

Federal Procurement and Contracting Requirements: A Sub-grantee is required to follow its own procurement procedures **as long as those procedures meet or exceed the federal procurement standards** established in 44 CFR 13.36. A brief summary of some of these federal requirements is as follows:

A. Procurement Methods (44CFR 13.36(d))

i. Small Purchase Procedure (44 CFR 13.36(d)(1))

To purchase services and supplies of \$100,000 or less

- Relatively simple and informal method
- Cannot exceed simplified acquisition threshold of \$100,000
- Must obtain price or rate quotation from adequate number of qualified sources (usually 3)

- Awarded based on lowest documented price quote

ii. Sealed Bids (Formal Advertising) (44 CFR 13.36(d)(2))

- For sealed bidding to be feasible, all of the following conditions should be present (generally used for construction and debris removal contracts):

- A complete, adequate and realistic specification or description of project is available.
- Two or more responsible bidders are willing and able to compete effectively.
- Bids publicly solicited and advertised and a firm-fixed-price contract (lump sum or unit price) awarded
- The procurement lends itself to a firm fixed price contract.

- If the sealed bid procurement method is used, the following requirements are applicable:

- The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids.
- The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond.
- All bids will be publicly opened at the time and place prescribed in the invitation for bids.
- A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of
- Any or all bids may be rejected if there is a sound documented reason

- Contract awarded to the responsible bidder whose bid conforms with invitation for bid and whose bid is lowest in price

iii. Competitive Proposals (44 CFR 13.36(d)(3))

Generally used to purchase Architectural, engineering or professional and personal services when conditions are not appropriate for the use of sealed bids.

- Requests for proposals will be publicized and identify all evaluation factors and their relative importance.
- Any response to publicized requests for proposals shall be honored to the maximum extent practical.
- Proposals will be solicited from an adequate number of qualified sources.
- The Sub-grantee must have a method for conducting technical evaluations of the proposals received and for selecting awardees
- Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered
- The Sub-grantee may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in

procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

iv. Noncompetitive (Sole Source) proposals (44 CFR 13.36(d)(4))

The following conditions are applicable to all sole source or noncompetitive procurements:
