Indiana Code You Are Commenting On:	2014 Indiana Building Code
Comment or Proposal:	<p>I propose that the Code be updated to reference the 2021 International Building Code (IBC) and that state wide amendments to the model code be limited. There are numerous updates between the 2012 IBC and the 2021 IBC that are paramount to maintaining public safety. This change will also maintain Indiana as a desirable location to locate high tech and engineering businesses, support Indiana's world class university system, assist with employee attraction and retention, and prevent brain drain by staying current with the latest research and industry best practices.</p>
