Job Description: The Incumbent practices in accordance with philosophy, policies, procedures and standards of the Tippecanoe Emergency Medical Ambulance Services under the direction of the EMS Manager, or Department Medical Director or his/her designee; provides assessment and appropriate interventions to stabilize the patient for transport through the use of critical thinking skills while functioning within the guidelines of the protocols that have been reviewed and agreed upon by medical directors. The incumbent assures care for patients and families reflective of the Franciscan values in the 911-prehospital setting. Work as a team to maintain vehicles in a mission ready status at all times. Safely drive ambulances according to the state and local laws. Requires knowledge of the behaviors, developmental stages, physical and emotional needs, life cycle changes, culture, comfort and care appropriate to the population served.

Salary: Based on years of experience
