Pursuant to SEA 544-2013, the State Budget Agency (SBA) shall provide each county auditor an estimate of the amount of income tax revenue available for distribution in the ensuing year before August 2. SBA shall then provide each county auditor the official certification of the amount of income tax revenue available for distribution in the ensuing year before October 1. The unit-level distributions above are based on the August estimates. Official unit-level distributions will be made available in early October after SBA's certification of the actual values available for distribution.

I.C. 6-3.5-1.1-25(f) states that "the county auditor shall distribute the portion of the certified distribution that is attributable to a tax rate under this section to the county and to each municipality in the county." The Department of Local Government Finance has calculated the above advisory amounts as a service to county auditors. The Department assumes no statutory responsibility for the calculations. If a county has adopted an ordinance under IC 6-3.5-1.1-25(l) to distribute public safety revenues to a unit other than a city or town, the county auditor is responsible for calculating the change in the distribution.
