To: Department of Local Government Finance

You will find in this workbook the 2007 sales ratio and equalization study for Decatur County. Please notify the Decatur County Assessor as soon as possible with any questions or with the certification of acceptance.

We have included a combined tab for Commercial and Industrial properties. The commercial and industrial properties have the same land values in each neighborhood, therefore the trending factors established for the commercial land were also used for the industrial land. The Industrial Improved Grouping includes industrial sales that occured in townships not requiring a sales ratio due to having less than 25 parcels. However, we included these sales in our trending analysis in order to present the best trending factor available.

We had also gathered income and expense information from those that responded to our mailing.

Please note that parcels which have a '+' after the number are multi-parcel sales and have the total of all improved parcels for sales ratio purposes.

Please respond as soon as possible with any questions or concerns so that we can submit our values to the Auditor.

Thank You,

Tami Wenning
Decatur County Assessor

jm
