Indebtedness Limits, by Unit of Government

Prepared by the Department of Local Government Finance
December 2, 2010

I.C. 5-1-18-9 requires political subdivisions to annually submit to the Department by March 1 a list of all bonds, leases, and other debt currently outstanding as of the close of the most recent calendar year.

The Indiana Constitution and I.C. 36-1-15 limit the amount of indebtedness a political subdivision may incur. Pursuant to I.C. 36-1-15, the Department must compute the “adjusted value of taxable property”, which is defined as the taxable value of property for the last assessment divided by three. I.C. 36-1-15-6 specifies that a political subdivision may not become indebted in excess of 2% of its adjusted value of taxable property, unless other statutes allow for a different percentage.

This report includes net assessed values, a calculation of the adjusted value of taxable property, and the statutory debt limit under I.C. 36-1-15 for each taxing unit. In addition to established taxing units, political subdivisions may also include other municipal corporations or special taxing districts which have their own applicable debt limit. These subdivisions are not separately listed on this report. The statutory debt limits for the political subdivisions that may become indebted in excess of 2% are not calculated but are indicated by “subject to other debt limit”.

The net assessed values are those certified to the Department by the County Auditor during 2009 for property taxes payable in 2010. LaPorte County had not certified 2009 Pay 2010 assessed values to the Department as of the date of this report. The report relies upon 2006 Pay 2007 assessed values for LaPorte County.

A copy of this report may be found at <http://www.in.gov/dlgf/8379.htm>. A detailed list of indebtedness incurred by each reporting political subdivision is available upon request to the Department of Local Government Finance.
