#### B. Cyclical Reassessment.

1. The group(s) of parcels of real property containing approximately 25% or more of the parcels within each class of real property in the County (as prescribed by the County's reassessment plan as approved by the Department) and which the Contractor is to review pursuant to this Contract ("group(s)") is/are limited to: Agricultural  
and/or Residential, Commercial, Industrial, Utility,  
Exempt.

2. For the group(s) of property listed in paragraph 2(B), the Contractor will complete all responsibilities imposed upon an assessing official under IC 6-1.1-4 and 50 IAC 2.4 regarding the assessment of real property for phase(s) 1 through 4 of the cyclical reassessment, unless such responsibilities are specifically retained by the County as listed in paragraph 3, including but not limited to:

- (a) Perform the physical inspection, as that term is defined in the Request for Proposal issued by the County and which gave rise to this Contract, which definition is incorporated by reference herein, of all real property in the group(s) specified in paragraph 2(B), for which physical inspection shall begin on or after July 1, 2014, 2015, 2016 and 2017 and be completed on or before March 1, 2015, 2016, 2017 and 2018.
- (b) Recommend to the County the True Tax Value, as that term is defined in the 2011 Real Property Assessment Manual and Guidelines, of all parcels in the group(s) using the guidelines determined by the Department.
- (c) Compliance with IC 6-1.1-4-4.2(a)(6)(A) to physically inspect each parcel of real property in the group(s) being reassessed, may be satisfied using various approaches. The following is a list of suggestions:
  - i. As a basic procedure, visually inventory the property with the property record card in hand, and confirm that all buildings, structures, and improvements (“improvements”) are properly described on the property record card, and
    - (aa) if any improvements do not appear to be properly described, take the necessary measurements to properly describe the improvements on the property record card;
    - (bb) if any improvements do not have photographs attached to the property record card, and the County believes it is appropriate to have a photograph of the improvement, take the photograph and include it with the property record card; and
    - (cc) if any buildings or structures have been added to the land that do not appear to be fully described, exterior measurements must be obtained. If the County believes an interior inspection is desirable, seek the *permission* of the owner to enter the building or structure. If no owner or representative of the property is present, leave a printed form such as a door hanger requesting the property owner or representative contact the Contractor to make arrangements for the in-structure inspection. The printed form shall make clear that the property owner/representative may choose not to have an interior inspection.

ii. As an alternative to on-site inspections, the following procedures are suggested:

- (aa)  *[Check if the County requires the Contractor to comply with these procedures.]* If the County has a construction permit process and maintains active updating of property record cards, physical inspection may include review of building permits, sales disclosure forms, multiple listing service property data, and inspection of aerial photography. A visual inspection of the property from the street is desirable, but may not be necessary in every case. In cases where the Contractor does not intend to send an employee to the property, a written explanation shall be provided to the County, to which the County shall consent in writing.
- (bb)  *[Check if the County requires the Contractor to comply with these procedures.]* If the County does not have a construction permit process and does not actively update property record cards, the Contractor's personnel shall make a visit to each property as described in paragraph 2(B).
- (cc)  *[Check if the County requires the Contractor to comply with these procedures.]* If the County records available are less than a construction permit process and active updating of property record cards but more informative than having no current records, the Contractor shall perform the duties of physical inspection by classes described as follows:

*[The County shall insert the level of physical inspection required for each class of property.]*

(A) Agricultural: \_\_\_\_\_  
\_\_\_\_\_

(B) Residential: \_\_\_\_\_  
\_\_\_\_\_

(C) Commercial: \_\_\_\_\_  
\_\_\_\_\_

(D) Industrial: \_\_\_\_\_

(d) Adequately provide for the creation and transmission of real property assessment data in the form required by LSA and the Department's division of data analysis.

leave a door hanger at the property to provide the owner a means of contacting the County to provide interior information.

(3) The Contractor will also be responsible for digital photographing of new improvements and additions or other changes to those improvements.

(4) If the Contractor locates an improvement that is under construction or under demolition at the time of a field inspection, a notation to that effect will be placed on the property record card indicating the estimated percentage of completion or demolition at the time of the inspection.

Ownership of Documents and Materials.** All documents, records, programs, data, film, tape, articles, memoranda, and other materials not developed or licensed by the Contractor prior to execution of this Contract, but specifically developed under this Contract, shall be considered "work for hire" and the Contractor transfers any ownership claim to the County and all such materials will be the property of the County. Use of these materials (other than as related to contract performance by the Contractor) without the prior written consent of the County is prohibited. During the performance of this Contract, the Contractor shall be responsible for any loss of or damage to these materials developed for or supplied by the County or the Department and used to develop or assist in the services provided while the materials are in the possession of the Contractor. Any loss or damage thereto shall be restored at the Contractor's expense. The Contractor shall provide the County and the Department full, immediate, and unrestricted access to the work product during the term of this Contract.

**25. Delays.**

A. Whenever the Contractor or the County has knowledge that any actual or potential situation is delaying or threatens to delay the timely performance of this Contract, it shall, within ten (10) days, provide written notice of the delay to the other party by certified mail, return receipt requested, including all relevant information with respect to the actual or potential cause of the delay.

B. In the event of a delay by the Department, legislative action, or court rulings, the County and the Contractor reserve the right to re-negotiate all terms of this Contract, including costs.

**26. Disputes.**

A. Should any disputes arise with respect to this Contract, the Contractor and the County agree to act immediately to resolve such disputes. Time is of the essence in the resolution of disputes.

B. The Contractor agrees that, the existence of a dispute notwithstanding, it will continue without delay to carry out all of its responsibilities under this Contract that are not affected by the dispute. Should the Contractor fail to continue to perform its responsibilities regarding all non-disputed work without delay, any additional costs incurred by the County or the Contractor as a result of such failure to proceed shall be borne by the Contractor.

C. If a party to this Contract is not satisfied with the progress toward resolving a dispute, the party must notify in writing the other party of this dissatisfaction. Upon issuance of written notice, the parties have ten working days, unless the parties mutually agree to extend this period, following the notification to resolve the dispute. If the dispute is not resolved within ten working days, a dissatisfied party shall submit the dispute in writing according to the following procedure:

The parties agree to resolve such matters through submission in writing of their dispute to the Commissioner of the Department. The Commissioner shall reduce a decision to writing and mail or otherwise furnish a copy thereof to the Contractor and the County within ten working days after presentation of such dispute for action. The presentation may include a period of negotiations, clarifications, and mediation sessions and will not terminate until the Commissioner concludes that the presentation period is over. The Commissioner's decision shall be final and conclusive unless either party mails or otherwise furnishes to the Commissioner, within ten working days after receipt of the Commissioner's decision, a written appeal. Within ten working days of receipt by the Commissioner of a written request for appeal, the decision may be reconsidered. If no reconsideration is requested within ten working days, the parties may mutually agree to submit the dispute to arbitration or mediation for a determination. If a party is not satisfied with the Commissioner's ultimate decision, the dissatisfied party may submit the dispute to an Indiana court of competent jurisdiction.

The County may withhold payments on disputed items pending resolution of the dispute. The unintentional nonpayment by the County to the Contractor of one or more invoices not in dispute in accordance with the terms of this Contract will not be cause for the Contractor to terminate this Contract and the Contractor may bring suit to collect these amounts without following the disputes procedure contained herein.

**27. Termination for Convenience by County.** This Contract may be terminated, in whole or in part, by the County or the Department whenever, for any reason, the County or the Department determines that such termination is in its best interest. A decision by the County to terminate this Contract shall not be attributed to the Department. Similarly, a decision by the Department to terminate this Contract shall not be attributed to the County, nor shall such a decision by the Department give rise to a cause of action against the Department. Termination of services shall be effected by delivery to the Contractor of a Termination Notice at least thirty days prior to the termination effective date specifying the extent to which performance of services under such termination becomes effective. In the Notice, the party or parties terminating this Contract must state which party or parties

initiated the termination. The Contractor shall be compensated for services properly rendered prior to the effective date of termination, but under no circumstances will the Department be responsible for any payment, including damages, to the Contractor. The County will not be liable for services performed after the effective date of termination. The Contractor shall be compensated for services herein provided but in no case shall total payment made to the Contractor exceed the original contract price or shall any price increase be allowed on individual line items if canceled only in part prior to the original termination date.

**28. Termination for Default by County.** If the County, 60 days after receipt of written notice, fails to correct or cure any material breach of this Contract, the Contractor may cancel and terminate this Contract and institute the appropriate measures to collect monies due up to and including the date of termination.

**29. Audits.** The Contractor acknowledges that it may be required to submit to an audit of funds paid through this Contract. Any such audit shall be conducted in accordance with IC 5-11-1, *et. seq.*, and audit guidelines specified by the State.

**30. Compliance with Laws.**

A. The Contractor shall comply with all applicable federal, state and local laws, rules, regulations, and ordinances, and all provisions required thereby to be included herein are hereby incorporated by reference. The enactment or modification of any applicable state or federal statute or the promulgation of rules or regulations thereunder after execution of this Contract shall be reviewed by the County and the Contractor to determine whether the provisions of this Contract require formal modification.

B. The Contractor certifies by entering into this Contract that neither it nor its principal(s) is/are presently in arrears in payment of taxes, permit fees, or other statutory, regulatory, or judicially required payments to the State of Indiana or the County. The Contractor agrees that any payments currently due to the State of Indiana or the County may be withheld from payments due to the Contractor. Additionally, further work or payments may be withheld, delayed, or denied, and/or this Contract suspended until the Contractor is current in its payments and has submitted proof of such payment to the State of Indiana.

C. The Contractor certifies, warrants, and represents that it has no current, pending, or outstanding criminal, civil, or enforcement actions initiated by the State of Indiana or the County, and that neither it nor its principal(s) is/are are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from entering into this Contract by any federal agency or by any department, agency, or political subdivision of the State of Indiana, or the County. The Contractor agrees that it will immediately notify the County and the Department of any such actions and during the term of such actions, the County or the Department may delay, withhold, or deny work under any supplement, amendment, change order, or other contractual device issued pursuant to this Contract.

D. If a valid dispute exists as to the Contractor's liability or guilt in any action initiated by the State of Indiana or its agencies or the County, the County may delay, withhold, or deny work to the Contractor.

E. The Contractor warrants that it shall obtain and maintain all required permits, licenses, registrations, and approvals, and shall comply with all health, safety, and environmental statutes, rules, or regulations in the performance of work activities for the County. Failure to do so may be deemed a material breach of this Contract and grounds for immediate termination and denial of further work with the County.

F. The Contractor affirms that, if it is an entity described in IC 23, it is properly registered and owes no outstanding reports to the Indiana Secretary of State.

G. As required by IC 5-22-16.5, the Contractor certifies that the Contractor is not engaged in investment activities in Iran. Providing false certification may result in the consequences listed in IC 5-22-16.5-14 including termination of this Contract, denial of future state contracts, as well as an imposition of a civil penalty.

H. As required by IC 22-5-1.7, the Contractor swears or affirms under the penalties of perjury that:

(1) The Contractor does not knowingly employ an unauthorized alien.

(2) The Contractor shall enroll in and verify the work eligibility status of all his/her/its newly hired employees through the E-Verify program as defined in IC 22-5-1.7-3. The Contractor is not required to participate should the E-Verify program cease to exist. Additionally, the Contractor is not required to participate if the Contractor is self-employed and does not employ any employees.

(3) The Contractor shall not knowingly employ or contract with an unauthorized alien. The Contractor shall not retain an employee or contract with a person that the Contractor subsequently learns is an unauthorized alien.

(4) The Contractor shall require his/her/its subcontractors who perform work under this Contract to certify to the Contractor that the subcontractor does not knowingly employ or contract with an unauthorized alien and that the subcontractor has enrolled and is participating in the E-Verify program. The Contractor agrees to maintain this certification throughout the duration of the term of a contract with a subcontractor.

(5) The Department may terminate for default if the Contractor fails to cure a breach of this provision no later than thirty days after being notified by the Department.

**31. Taxes.** The County is exempt from most state and local taxes and many federal taxes. The County and the Department will not be responsible for any taxes levied on the Contractor as a result of this Contract.

**32. Independent Contractor; Workers' Compensation Insurance.** The Contractor is performing as an independent entity under this Contract. No part of this Contract shall be construed to represent the creation of an employment, agency, partnership or joint venture agreement between the parties. Neither party will assume liability for any injury (including death) to any persons, or damage to any property, arising out of the acts or omissions of the agents, employees or subcontractors of the other party. The Contractor shall provide all necessary unemployment and workers' compensation insurance for the Contractor's employees, and shall provide the Department with a Certificate of Insurance evidencing such coverage prior to starting work under this Contract.

**33. Contractor Assignment, Successors, and Subcontracting.** The Contractor shall not assign or subcontract the whole or any part of this Contract. The Contractor may assign its right to receive payments to such third parties as the Contractor may desire without the prior written consent of the County, provided that the Contractor gives written notice (including evidence of such assignment) to the County 30 days in advance of any payment so assigned. The assignment shall cover all unpaid amounts under this Contract and shall not be made to more than one party.

**34. Force Majeure.** In the event that either party is unable to perform any of its obligations under this Contract or to enjoy any of its benefits because of natural disaster or decrees of governmental bodies not the fault of the affected party ("Force Majeure Event"), the party who has been so affected shall immediately give notice to the other party and shall do everything possible to resume performance. Upon receipt of such notice, all obligations under this Contract shall be immediately suspended. If the period of nonperformance exceeds 30 days from the receipt of notice of the Force Majeure Event, the party whose ability to perform has not been so affected may, by giving written notice, terminate this Contract.

**35. General Provisions.**

A. Entire Agreement. This Contract sets forth the entire agreement and understanding of the parties with respect to the subject matter and supersedes all prior oral and written agreements and understandings between the County and the Contractor. No representation, promise, inducement, or statement of intention has been made by either party which is not set forth in this Contract and neither party shall be bound by or liable for any alleged representation, promise, inducement, or statement of intention not so set forth.

B. Waiver of Rights. No right conferred on either party under this Contract shall be deemed waived, and no breach of this Contract excused, unless such waiver is in writing and signed by the party claimed to have waived such right. Neither the County's review, approval, acceptance of, or payment for the services required under this Contract shall be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the Contractor shall be and remain liable to the County and the Department in accordance with applicable law for all

damages to the County or the Department caused by the Contractor's negligent performance of any of the services furnished under this Contract.

C. Severability. In the event that one or more of the provisions contained in this Contract shall for any reason be held invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provisions contained in this Contract. If any provision contained in this Contract shall for any reason be held to be excessively broad as to duration, geographical scope, activity, or subject, it shall be construed by limiting and reducing it, so as to be enforceable to the extent compatible with the applicable law as it then shall appear.

D. Addenda. No addendum to this Contract will be binding unless in writing and executed by all of the parties that are signatories to this Contract.

**36. Governing Law.** This Contract shall be governed, construed, and enforced in accordance with the laws of the State of Indiana, without regard to its conflict of laws rules. Suit, if any, must be brought in the State of Indiana.

**38. Drug-Free Workplace Certification.** As required by Executive Order No. 90-5 dated April 12, 1990, issued by the Governor of Indiana, the Contractor hereby covenants and agrees to make a good faith effort to provide and maintain a drug-free workplace. The Contractor will give written notice to the Department within ten days after receiving actual notice that the Contractor, or an employee of the Contractor in the State of Indiana, has been convicted of a criminal drug violation occurring in the workplace. False certification or violation of this certification may result in sanctions including, but not limited to, suspension of contract payments, termination of this Contract and/or debarment of contracting opportunities with the State for up to three years. In addition to the provisions of the above paragraph, if the total amount set forth in this Contract is in excess of \$25,000.00, the Contractor certifies and agrees that it will provide a drug-free workplace by:

- A. Publishing and providing to all of its employees a statement notifying them that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Contractor's workplace, and specifying the actions that will be taken against employees for violations of such prohibition;
- B. Establishing a drug-free awareness program to inform its employees of (1) the dangers of drug abuse in the workplace; (2) the Contractor's policy of maintaining a drug-free workplace; (3) any available drug counseling, rehabilitation, and employee assistance programs; and (4) the penalties that may be imposed upon an employee for drug abuse violations occurring in the workplace;
- C. Notifying all employees in the statement required by subparagraph (A) above that as a condition of continued employment, the employee will (1) abide by the terms of the statement; and (2) notify the Contractor of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction;
- D. Notifying the Department in writing within ten days after receiving notice from an employee under subdivision (C)(2) above, or otherwise receiving actual notice of such conviction;
- E. Within thirty days after receiving notice under subdivision (C)(2) above of a conviction, imposing the following sanctions or remedial measures on any employee who is convicted of drug abuse violations occurring in the workplace: (1) taking

appropriate personnel action against the employee, up to and including termination; or (2) requiring such employee to satisfactorily participate in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency; and

F. Making a good faith effort to maintain a drug-free workplace through the implementation of subparagraphs (A) through (E) above.

**39. Indemnification.** The Contractor agrees to indemnify, defend, and hold harmless the County and the Department, their agents, officials, and employees from all claims and suits including court costs, attorney's fees, and other expenses caused by any act or omission of the Contractor in the performance of this Contract. The County and the Department shall not provide such indemnification to the Contractor.

**40. Insurance.**

A. The Contractor must carry automobile, public liability, and worker's compensation insurance policies for the entire duration of time during which the Contractor is completing obligations under this Contract. The Contractor's public liability and worker's compensation insurance policies must each provide at least \$1 million dollars in coverage. The Contractor must have automobile insurance that meets or exceeds the minimum amounts required by the State of Indiana for each vehicle it will use in the fulfillment of this Contract. A material inducement for entering into this Contract is that the Contractor will carry automobile, public liability, and worker's compensation insurance policies consistent with the requirements of this section. Failure to maintain insurance policies consistent with this section may be deemed a material breach of this Contract and grounds for immediate termination by the County or the Department and denial of further work with the County. The Contractor must provide the County and Department with copies of its insurance certificates and endorsements before the Department can become a signatory to this Contract.

*(List any additional insurance policies or coverage amounts that the County requires the Contractor to carry beyond the policies or amounts listed above.)*

B. The Contractor's insurance coverage must meet the following additional requirements:

(1) The insurer must have a certificate of authority issued by the Indiana Department of Insurance.

(2) Any deductible or self-insured retention amount or other similar obligation under the insurance policies shall be the sole obligation of the Contractor.

(3) The County and the Department will be defended, indemnified, and held harmless to the full extent of any coverage actually secured by the

Contractor in excess of the minimum requirements set forth above. The duty to indemnify the County and the Department under this Contract shall not be limited by the insurance required in this Contract.

(4) The insurance required in this Contract, through a policy or endorsement(s), shall include a provision that the policy and endorsements may not be modified without 30 days prior written notice to the County and the Department.

**41. Nondiscrimination.** Pursuant to the Indiana Civil Rights Law, specifically IC 22-9-1-10, and in keeping with the purposes of the federal Civil Rights Act of 1964, the Age Discrimination in Employment Act, and the Americans with Disabilities Act, the Contractor covenants that it shall not discriminate against any employee or applicant for employment relating to this Contract with respect to the hire, tenure, terms, conditions, or privileges of employment or any matter directly or indirectly related to employment because of the employee or applicant's: race, color, national origin, religion, sex, age, disability, ancestry, status as a veteran, or any other characteristic protected by federal, state, or local law ("Protected Characteristics"). Furthermore, the Contractor certifies compliance with applicable federal laws, regulations, and executive orders prohibiting discrimination based on the Protected Characteristics in the provision of services.

**42. Travel.** No expenses for travel will be reimbursed unless specifically permitted under the scope of services or consideration provisions.

**43. Copy of Contract.** The County shall provide to the Department a copy of this Contract, including documentation of any performance bond, within seven days of its signing by the County and Contractor. The Contract does not take effect until it is signed by the Department.

*(Provision 44 is optional.)*

**44.  Guaranteed Most Favorable Terms.** All of the prices, terms, conditions, and benefits granted by the Contractor in this Contract are comparable to or better than the terms granted by the Contractor to any other similarly situated state and local government customer. If the Contractor announces a price reduction or makes generally available to other customers more favorable terms or conditions, such prices, terms, or conditions shall be made available to the County and the Department on the date the price reduction or change in terms and conditions became effective.

**45. Substantial Compliance.** This Contract shall be deemed to be substantially performed only when fully performed according to its terms and conditions and any addenda.

**46. Affirmation that Contract Language Has Not Been Altered.** The parties affirm that they have not altered, modified, changed, or deleted the Department's Boilerplate

contract clauses in any way, except where the contract explicitly permits the addition or modification of terms. Any alteration not explicitly permitted is void.

**OHIO COUNTY 2018 CYCLICAL REASSESSMENT  
WORK PLAN - DESCRIPTION**

**For each year of the cyclical reassessment - The following activities will be performed for approximately one-quarter (1/4) of the properties.**

**Photo Copy Maps:** Using the GIS systems, the County will print off section maps and in more populated areas quarter section maps for the townships to be reviewed. These maps will contain the parcels with parcel numbers, road names and lot sizes where available. They will also contain the most current aerial photography.

**Print PRC's:** For the townships to be reviewed, the County will print off the property record cards in an agreeable order to best expedite the routing and inventory. The PRC's should have been updated with the most current changes due to splits, combinations, or new construction.

**Routing & Inventory:** The vendor shall be responsible to inventory the PRC's against the plat maps to insure they have all of the parcels. They will then route the PRC's in an order that will best allow for the review of the parcels in the field. This routing number will be put on the map and the PRC to be entered into the CAMA system.

**Res & Ag Collection:** The vendor shall be responsible to walk or drive around each property allowing view of at least three (3) sides of the main structure of residential / agricultural properties, except where prohibited by fence, livestock, shrubbery or other physical barrier. Each property record card will be compared to the actual property for correctness of information. Any errors or omissions will be corrected. Residential / agricultural outbuildings will be reviewed for errors or omissions as well as location in respect to the main structure. All buildings shall be described as to the type of building, width, length, and height of buildings, as well as features relative to said buildings. A careful review shall also include condition of buildings as well as appropriate grade. Review of vacant parcels will also be completed to insure said properties have not changed.

**Res & Ag Data Entry:** The County shall be responsible to update the CAMA system with changes noted on the PRC's. This will include updates to the sketch, location of outbuildings, and interior information as well as condition and grade changes to obtain the basis for the cost approach to value.

**C/I/E/U Collection:** The vendor will review the measurements and use of all Commercial, Industrial, Exempt, and Utility property, as well as review the listing of the component parts of the structure. Each property record card will be compared to the actual property for correctness of information. Any errors or omissions will be corrected. Outbuildings will be reviewed for size, description, and location to the main structure.

**C/I/E/U Data Entry:** The County shall be responsible to update the CAMA system with changes noted on the PRC's. This will include updates to the sketch, location of outbuildings, and

interior information as well as condition and grade changes to obtain the basis for the cost approach to value. Changes in use allocation will also be updated as noted on the updated PRC.

**New Construction:** Each year the County will prepare all building permits and removals and attach them to the most current PRC. The County is responsible to update the PRC's with new construction or demolitions that have occurred throughout the county (not just the 1/4 county being reviewed). The County will measure, label and update the PRC with all changes found on the property, not just those listed on the permit.

**N/C Data Entry:** The County is responsible to update the CAMA system with changes caused by the building and demolition permits.

**Nbhd Delineation:** The first year of the Cyclical Reassessment (2015 Assessment Year), the vendor will review all neighborhood delineation as well as base rates for changes from the previous reassessment. Vacant sales as well as abstraction or allocation methods will be used in determining those values. Standard influence factors, if needed, will also be established. Changes to the established land order will be brought to the PTABOA.

**Cost Tables:** The County, through their CAMA Vendor, will be responsible for updating the cost tables as established by the DLGF.

**Sales Validation:** The County shall attach a copy of the sales disclosure to its corresponding PRC. The County shall determine the validity of the sale by reviewing the sales disclosure, contacting the buyer or seller if needed, and field inspecting the property for those to be used in the ratio study. The sales disclosures will be returned to the County with the validity codes and corrections to the PRC for entry into the County's CAMA and sales disclosure systems.

**Trending/Ratio Study:** The Vendor shall be responsible to utilize the valid sales to establish the trending factors to be applied. The Vendor shall use sales from not less than 14 months before the assessment date and not longer than 5 years. Sales over 14 months will be time adjusted. The established trending factors for land and buildings shall be returned to the County for entry into their CAMA system. A ratio study from those factors will be sent by the Vendor to the DLGF for approval.

**Printing of Form 11's:** The County will be responsible to send out form 11's for all parcels in the county.

**Defense of Values:** The Vendor will have staff member(s) available who are familiar with the project to assist the County in defending the values toward appeals filed after the form 11's were sent. The assistance will be available from the Informal Hearing through the PTABOA hearings and include defense, if needed, to the IBTR.

Judy Affolder  
Adams County Assessor  
313 W Jefferson St Rm 230  
Decatur, IN 46733

Dear County Assessor:

The Department of Local Government Finance (formerly the State Board of Tax Commissioners) received the enclosed application from Ad Valorem Solutions seeking certification under IC 6-1.1-31.7 as a professional appraiser authorized to provide technical assistance to Adams County in connection with ongoing assessment activities.

The SBTC (DLGF) promulgated rules, 50 IAC 15-4 (copy enclosed), to establish a couple basic requirements relating to professional appraisers. To assure that a professional appraiser possesses a minimal level of technical qualifications, the professional appraiser must be (or employ) at least one level two certified assessor-appraiser under IC 6-1.1-35.5. To assure that the services the professional appraiser is to perform are not misunderstood, the duties to be performed by the professional appraiser's level two assessor-appraiser(s), the professional appraiser's administrative assistants/staff, and the township or county assessor or their staff, respectively, are required to be precisely delineated in the contract.

Under these provisions, applicants possessing a level two certification will be certified by the DLGF. You will note that the enclosed application of Ad Valorem Solutions has been approved. Should you choose to proceed in contracting with Ad Valorem Solutions, you will need to incorporate the proper detail in your contract to satisfy the provisions requiring their scope of work be clearly defined.

Obviously, these mandatory requirements are rudimentary, and cannot guarantee that the professional appraiser will meet your county's needs and expectations. The certification application form was designed with the intent of drawing out information that will help you better determine the professional appraiser's ability to serve your county effectively and actually fulfill your needs.

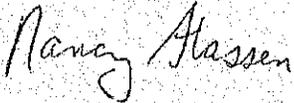

Consequently, you must carefully review the enclosed application to be certain that the professional appraiser:

- 1) possesses the requisite experience you believe necessary;

- 2) evidences the qualifications you desire and feel would be most beneficial; and
- 3) has not overextended their capability, by contracting in more counties than they can reasonably expect to serve (given their personnel).

Please let us know if we can be of additional service. Thank you.

Sincerely,

Nancy Stassen  
Director of Operations  
Department of Local Government Finance/Indiana Board of Tax Review
