Nancy Dennis, County Assessor

Putnam County used only the 2015 Sales for the Ratio Study. For the ones we did not use there is an explanation sheet as to why they were not used.

With Commercial and Industrial there were not enough sales in the whole county to justify making any changes. There were no vacant Commercial or Industrial sales in 2013, 2014 or 2015. Some of the townships were combined due to lack of sales in one township.

We have a lot of new exemptions due to the walking trail going through our county.

There are the usual Splits and Combinations.
