OUR STORY

Fairbanks Landing Fish & Wildlife Area provides quality hunting and fishing opportunities while maintaining 8,133 acres, including 8 miles of Wabash River frontage.

The property was obtained through a 2004 management agreement with Indiana Michigan Power. It was originally the site of the company's Breed Plant.

Most revenues used for development, operation and maintenance of Fairbanks Landing FWA come from the sale of hunting, fishing and trapping licenses.

Fairbanks Landing FWA is managed by Deer Creek FWA. Please contact Deer Creek FWA at 765-653-0453 for additional information.

FUNDING FOR FISH & WILDLIFE

The DNR Division of Fish & Wildlife sells hunting, fishing, and trapping licenses. All revenue is used for managing fish and wildlife resources in Indiana. No license money goes into the state general fund.

The Division also receives money from the federal Sport Fish and Wildlife Restoration programs (sometimes referred to as Dingell-Johnson and Pittman-Robertson funds). The funds are derived from excise taxes levied on sporting arms and ammunition, bows and arrows, fishing equipment and motor boat fuel. The funds are then returned to state fish and wildlife agencies using a formula that in part is based on the number of fishing and hunting license buyers.
