TRAIL ENDS: Hikers traveling north up Trail 2 (Clifty Creek) to the falls observation area must return south to exit safely via one of the designated connecting trails.

Clifty Canyon Nature Preserve lies within the boundaries of the park. This 178-acre nature preserve is located in the northwest section of the park and has both geological and ecological highlights. Be aware that this nature preserve should be left undisturbed. Off-trail hiking in Indiana state parks is ecologically damaging, frequently unsafe and illegal. Violators will be prosecuted.

• Park Speed Limit is 15 MPH.
• Stay on marked trails.
• Trails close at dusk.
• Walking on park roads after dark is prohibited.
• Shortcuts cause erosion and can lead to dangerous areas.

people have always been fascinated by scenes of geologic splendor, land that provides witness to the awesome forces of nature at work. With its narrow, steep canyons, sheer cliffs, and plunging waterfalls, Clifty Falls State Park is such a place. Located on state roads 56 and 62 just west of Madison, Ind., Clifty Falls State Park was established in 1920 to preserve the falls on Clifty Creek, “a bit of original Indiana.”

Initially the park consisted of 617 acres, primarily private property. Today, the park more than doubled in size when it was established in 1920 to preserve the falls on Clifty Creek, “a bit of original Indiana.”

The program, offices, facilities, and programs of the Indiana Department of Natural Resources are available to everyone without discrimination on the basis of race, color, sex, religion, national origin, age, or disability in accordance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.
