2562

Content Area:

Mathematics

Course Delivery:

Online

Enrollment Type:

Continuous

Enrollment Deadline:

None

Course Description:

Calculus is a fusion of a variety of mathematical ideas. Calculus relies on thinking about mathematics in a different light, where an object approaches a certain value (instead of equal to the value) and students are asked to evaluate function at infinity (instead of at real numbers). The curriculum for semester 1 of Calculus will concentrate on Limits and Derivatives.
