Course Description:

Have you ever been fascinated by watching two people communicate with their hands and wish you knew what they were saying? Do you want to learn a unique language not offered at many Indiana high schools? Did you know that if you learn American Sign Language, you can converse easily with another ASL user through windows, doors, with your mouth full of food, and even underwater? Continuing into Second semester of American Sign Language will give students a peek into Deaf culture while building critical vocabulary skills necessary to communicate with other ASL users.
