

Provider:

Indiana Online

Course Code:

7183

Content Area:

CTE: Business, Marketing, Information Technology, Entrepreneurship

Course Delivery:

Online

Enrollment Type:

Continuous

Enrollment Deadline:

None

Course Description:

Use this course to find out what is inside a modern computer. Learn practical aspects of computing - like how information is represented using number systems, and how data is stored and accessed. Enhance your knowledge of the internet, and make yourself aware of the basics of cybersecurity. See the jobs open to trained computing professionals.
