Course Description:

This course is the next level for education career exploration. Teaching and Learning provides students the opportunity to apply many of the concepts that they have learned throughout the Education Professions pathway. In addition to a focus on best practices, this course will provide an introduction to the role that technology plays in the modern classroom. Through hands-on experience with educational software, utility packages, and commonly used microcomputer hardware, students will analyze ways to integrate technology as a tool for instruction, evaluation, and management.

In this course, students will have the opportunity to create materials for their teaching portfolio while fine-tuning their preference for classroom management strategies.
