Safety Order and Notification of Penalty

To:
Markman Peat Corp.
and its successors
345 E. Hupp Road
La Porte, IN 46350

Inspection Number: 1730087
CSHO ID: O9120
Optional Report No.: 4-24
Inspection Date(s): 02/23/2024 - 04/23/2024
Issuance Date: 05/31/2024

Inspection Site:
345 E. Hupp Road
La Porte, IN 46350

The violation(s) described in this Safety Order and Notification of Penalty is (are) alleged to have occurred on or about the day(s) the inspection was made unless otherwise indicated within the description given below.

An inspection of your workplace of employment has revealed conditions which we believe do not comply with the provisions of the Indiana Occupational Safety and Health Act (Indiana Code Chapter 22-8-1.1) or the standards or rules adopted thereunder. Accordingly, enclosed please find safety order(s) and notification(s) of penalty describing such violation(s) with references to applicable standards, rules or provisions of the statute and stating the amount of any penalty(ies).

Informal Conference – Please be advised that it may be possible to informally settle any potential dispute without initiating the more elaborate proceedings brought on by a petition for review. Prior to filing a petition for review, you may request an informal conference concerning any results of the inspection (safety orders, penalties, abatement dates, etc.) by contacting the Indiana Department of Labor/IOSHA, preferably by telephone, in a prompt manner. Please be advised that a request for an informal conference cannot extend the fifteen working day period for filing a petition for review. Informal conferences frequently resolve any possible disputes, and therefore you are urged to take advantage of this opportunity. Because of the limited time period and in order to facilitate scheduling, any requests for an informal conference should be made promptly upon your receipt of the safety order(s) and notification(s) of penalty.

Right to Contest – You are hereby also notified that you are entitled to seek administrative review of the safety order(s), penalty(ies), or both by filing a written petition for review at the above address postmarked within fifteen working days of your receipt of the safety order(s) and notification(s) of penalty. (“Working days” means Mondays through Fridays, but does not include Saturdays, Sundays, legal holidays under a state statute or days on which the Indiana Department of Labor’s offices are closed during regular business hours). If you do not file such a petition for review (contest), the safety

order(s) and penalty(ies) shall be deemed final orders of the Board of Safety Review and not subject to review by any court or agency. The issuance of a safety order does not constitute a finding that a violation has occurred unless no petition for review is filed, or if a petition for review (contest) is filed, it must contain a statement of its basis and should reference the above inspection number. Upon receipt of your petition for review, we will affirm, amend or dismiss the safety order(s) and notification(s) of penalty. If we affirm, your petition for review will be granted (unless it was not timely) and the dispute will be certified by the Board of Safety Review for further proceedings. The Board of Safety Review is an independent board appointed by the governor with authority to conduct legal proceedings leading up to and including administrative hearings or assign an Administrative Law Judge (ALJ) to conduct the same, and to issue decisions concerning disputed safety orders and notifications of penalties. If we amend the safety order(s) or notification(s) of penalty, your petition for review shall be deemed moot. However, you will then be given an opportunity to file a petition for review concerning the amended safety order(s) and notification(s) of penalty.

Please be advised that an employee or representative of employees may file a petition for review to contest the reasonableness of the time stated in the safety order(s) for the abatement of any violation.

Posting - Upon receipt of any safety order(s) you are required to post such safety order(s), or a copy thereof, unedited, at or near each place an alleged violation referred to in the safety order(s) occurred. However, if your operations are such that it is not practicable to post the safety order(s) at or near each place of alleged violation, such safety order(s) shall be posted, unedited, in a prominent place where it will be readily observable by all affected employees. For example, if you are engaged in activities which are physically dispersed, the safety order(s) may be posted at the location from which the employees operate to carry out their activities. You must take steps to ensure that the safety order is not altered, defaced, or covered by other material. Posting shall be until the violation is abated, or for three working days, whichever is longer.

Penalties - Penalties are due within fifteen (15) working days of receipt of this notification unless contested. Abatement does not constitute payment of penalties.

Abatement - The conditions cited in the safety order(s) must be corrected (abated) on or before the date shown for each item on the safety order(s) and notification(s) of penalty unless:

(1) You file a petition for review concerning the violation, in which case the full abatement period shall commence from the issuance of a final decision by the Board of Safety Review or the courts which requires compliance with the safety order; or

(2) The abatement period is extended by the granting of a petition for modification of abatement date.

PMAs - The petition for modification of abatement date is a manner in which you may seek additional time to correct (abate) a violation without having to file a petition for review concerning the safety order, or after the expiration of the time period to file such a petition for review when it becomes apparent that you need extra time to abate the violation. A petition for modification of abatement date shall be in writing and shall include the following information:

(1) All steps you have taken, and the dates of such actions, in an effort to achieve compliance during the prescribed abatement period.

(2) The specific additional abatement time necessary in order to achieve compliance.

(3) The reasons such additional time is necessary, including the unavailability of professional or technical personnel or of materials and equipment, or because necessary construction or alteration of facilities cannot be completed by the original abatement date.

(4) All available interim steps being taken to safeguard employees against the cited hazard during the abatement period.

(5) A certification that a copy of the petition has been posted, and if appropriate, served on the authorized representative of affected employees, and a certification of the date upon which such posting and service was made.

A petition for modification of abatement date shall be filed with the Indiana Department of Labor/IOSHA no later than the close of the next working day following the date on which abatement was originally required. A later-filed petition shall be accompanied by the employer's statement of exceptional circumstances explaining the delay. A copy of such petition shall be posted in a conspicuous place where all affected employees will have notice thereof or near such location where the violation occurred. The petition shall remain posted until the time period for the filing of a petition for review of the Commissioner's granting or denying the petition expires. Where affected employees are represented by an authorized representative, said representative shall be served a copy of such petition.

Notification of Corrective Action - Correction of the alleged violations which have an abatement period of thirty (30) days or less should be reported in writing to us promptly upon correction. A "Letter of Abatement" form and an "Abatement Photographs" worksheet are enclosed for your assistance in providing adequate documentation of abatement. Reports of corrections should show specific corrective action on each alleged violation and the date of such action. On alleged violations with abatement periods of more than thirty (30) days, a written progress report should be submitted, detailing what has been done, what remains to be done, and the time needed to fully abate each such violation. When the alleged violation is fully abated, we should be so advised. Timely correction of an alleged violation does not affect the initial proposed penalty.

Followup Inspections - Please be advised that a followup inspection may be made for the purpose of ascertaining that you have posted the safety order(s) and corrected the alleged violations. Failure to correct an alleged violation may result in additional penalties for each day that the violation has not been corrected.

Employer Discrimination Unlawful - The law prohibits discrimination by an employer against an employee for filing a complaint or for exercising any rights under this Act. An employee who believes that he/she has been discriminated against may file a complaint no later than 30 days after the discrimination occurred with the Indiana Department of Labor/IOSHA at the address shown above.

Notice to Employees - The law gives an employee or his/her representative the opportunity to object to any abatement date set for a violation if he/she believes the date to be unreasonable. The contest must be mailed to the Indiana Department of Labor/IOSHA at the address shown above within fifteen (15) working days (excluding weekends and State holidays) or receipt by the employer of this safety

order and penalty.

If you wish additional information, you may direct such requests to us at the address or telephone number stated above.

Inspection Number: 1730087
CSHO ID: O9120
Optional Report No.: 4-24
Inspection Date(s): 02/23/2024 - 04/23/2024
Issuance Date: 05/31/2024

Safety Order and Notification of Penalty

Company Name: Markman Peat Corp.

Inspection Site: 345 E. Hupp Road, La Porte, IN 46350

Safety Order 1 Item 1 Type of Violation: **Serious**

29 CFR 1910.147(c)(4)(i): Procedures were not developed, documented and utilized for the control of potentially hazardous energy when employees were engaged in activities covered by this section:

Production Line #1 - Employees were exposed to struck-by injuries when they entered the robot cell to straighten/unjam pallets that had been dispensed crooked by the pallet dispenser. No machine-specific procedure was available for employee use when they accessed the robot cell and worked with the pallet dispenser.

ABATEMENT DOCUMENTATION REQUIRED FOR THIS ITEM

Date By Which Violation Must be Abated:

July 03, 2024

Proposed Penalty:

\$4,900.00

Safety Order and Notification of Penalty

Company Name: Markman Peat Corp.

Inspection Site: 345 E. Hupp Road, La Porte, IN 46350

Safety Order 1 Item 2 Type of Violation: **Serious**

29 CFR 1910.147(d): The established procedure for the application of energy control (the lockout or tagout procedures) did not cover the actions listed in and was not done in sequence as required by 29 CFR 1910.147(d)(1)-(6):

Production Line #1 - Employees and emergency personnel were exposed to struck-by and caught-by hazards when they entered Hamer Palletizer and Yaskawa Motoman robotic cell to perform non-production activities. The energy control application steps were not implemented per 1910.147(d) requirements. As a result, the following applicable energy control elements were not followed to include:

Shutdown the machine or equipment [(d)(1)] - ensure authorized employee has knowledge of the type and magnitude of the energy, the hazards of the energy to be controlled, and the method or means to control the energy;

Shutdown the machine or equipment [(d)(2)] - the machine or equipment shall be turned off or shut down using the procedures established for the machine or equipment;

Machine isolation [(d)(3)] - physically locate and operate all energy isolating devices that are needed to control the energy to the machine or equipment in such a manner as to isolate the machine or equipment from the energy source(s);

RE: 345 Hupp Road, La Porte
IOSHA Inspection Number 1730087

Dear Matthew Horn:

This correspondence is in response to a limited-scope inspection performed by an authorized representative of the Indiana Occupational Safety and Health Administration (IOSHA) at the address listed above. This inspection disclosed the following hazard(s):

Employees may be exposed to falls when climbing the fixed platform ladder to the hopper as the rungs do not have a non-slip surface at Production Line #1.

An occupational safety and health standard does not apply to this situation, and it is not appropriate at this time to issue an IOSHA General Duty Clause safety order (Indiana Code § 22-8-1.1 Section 2), and thus no safety order is currently being issued for the above-referenced hazard.

In the interest of employee workplace safety and health, it is recommended you take the following steps to voluntarily eliminate or reduce exposure to the hazard(s) as described above:

- Application of a non-slip coating to the platform ladder rungs may prevent slips and falls.

Employers may voluntarily provide IOSHA with progress reports on the efforts which have been taken to address these conditions. Employers may request a workplace safety and health consultation or training or educational assistance by contacting the Indiana Department of Labor's workplace safety and health consultation division, INSafe. Services provided by INSafe are at no additional cost to the employer and remain confidential provided the employer corrects any serious hazard identified by the consultant in a timely manner. To learn more about INSafe, visit www.in.gov/dol/insafe.htm or call (317) 232-2688.

Thank you for your interest in Hoosier workplace safety and health.

Sincerely,

A handwritten signature in black ink, appearing to read "Jameson Berry". The signature is fluid and cursive, with the first name "Jameson" and last name "Berry" clearly distinguishable.

Matthew Horn
Markman Peat Corp.
345 E. Hupp Road
La Porte, IN 46350

RE: OSHA Inspection Number 1730087

Dear Matthew Horn,

An inspection was initiated by the Indiana Occupational Safety and Health Administration (IOSHA) at your workplace located at 345 E. Hupp Road La Porte, IN 46350 on 02/23/2024. Based on this inspection, the following recommendations are being provided to enhance employee safety and health:

The Hamer hopper platform, over 8 feet above the lower level, had chains used for the guardrail system. The chains appeared to not be at appropriate height to act as mid-rail and top rail. The chains may also not be capable of withstanding without failure, a force of at least 200 pounds. Ensure that the chain heights are appropriate and they are of such size and grade to meet the requirements to act as a guardrail system.

An employer may request a workplace safety and health consultation or training or educational assistance by contacting the Indiana Department of Labor's workplace safety and health consultation division, INSafe. Services provided by INSafe are at no additional cost to the employer and remain confidential provided the employer corrects any serious hazard identified by the consultant in a timely manner. To learn more about INSafe, visit www.in.gov/dol/insafe.htm or call (317) 232-2688.

IOSHA welcomes any report of your efforts to mitigate the above-mentioned hazard(s). If you have any questions concerning this matter, please contact this office.

Sincerely,

Jameson Berry
Director, Indiana OSHA
