

Register Business with DOR

Business Scenario

If your business is not officially registered with the Indiana Department of Revenue (DOR), you will need to do that first before participating in Tax Amnesty 2026.

Register your business with DOR

If you do not have an INTIME account, your business will need to be registered through [INBiz](#) before creating an account. Once you are registered with INBiz, review the [INTIME Guide for Business Tax Customers](#) for help in setting up a business account.

To register for a new business with DOR, log into [INTIME](#) and follow these steps:

1. Select the "All Actions" tab and locate the "Tax Account Registration" panel.
2. Select "Register or renew a tax account."
3. In the "Business Tax Registration" tile, select "Register a New Business Tax Account."
4. Review the information, select "Next," and follow the steps provided.

File returns for your business

Select "File a return" on the tax account panel and file the return(s).

- After filing, allow 1-2 days to process. Log back in to ensure your return(s) has been processed.
- If you did not owe any sales tax for the return(s), you may enter zero dollars on the form.
