IRP New Account Documents List

To open a new IRP account, you must either:

- Claim Indiana as your base jurisdiction by having a qualifying "Established Place of Business" (EPB); or
- Reside in Indiana.

Most owner-operators, sole proprietors, and new businesses in Indiana can establish base jurisdiction using residency. Residency may also be an option if a business cannot show an EPB because it is new to Indiana. Information on establishing or proving Indiana residency is located on the other side.

When conducting business with DOR, you will need:

- Valid government-issued ID. For sole proprietors, an Indiana Driver's License is required to show residency.
- [A Power of Attorney](#) (POA-1) if you are representing the applicant.

Help MCS determine an Established Place of Business in Indiana with the following:
