

DETAILS AT DECK EXPANSION JOINT

DETAIL AT INTEGRAL END BENT

NOTES:

1. See Standard Drawing 706-CBRT-03 for General Notes.
2. This section of railing is part of the concrete bridge railing and shall be billed with the concrete railing on the bridge. The minimum length of this section shall be equal to the thickness of the mudwall, but the actual length of this section will depend on the position of the concrete bridge railing transition along the bridge approach slab, and shall be as shown on the plans.
3. Type IA joint. See Standard Drawing 724-BJTS-01 for details.

All dimensions are in mm unless otherwise specified.
