

INDIANA DEPARTMENT OF TRANSPORTATION

Design Memo No. 26-25

October 7, 2026

TO: All Design Personnel and Consultants

FROM: /s/ Jonathan Paauwe
Jonathan Paauwe
Engineering Services Director

SUBJECT: Traffic Review of Project Submittals in Infrastructure Cloud

REVISES: *Indiana Design Manual*/Section 14-1.02(09)

EFFECTIVE: Any Submittal in Infrastructure Cloud on or after November 1, 2026

The Traffic Engineering Division and District Technical Services Divisions are actively involved with reviewing design submittals but are not currently part of the official submittal process. The traffic-related elements of a project that need to be included for Traffic Review in an Infrastructure Cloud transmittal have been updated. These updates clarify which Traffic Offices are involved and help ensure any project that affects a traffic asset on the State highway system goes through a consistent, transparent review process.

The table below shows the traffic elements and the Traffic Engineering disciplines that should be identified in the Transmittal. For road and bridge projects that include any of the traffic elements listed, the traffic discipline should be named in addition to the request for road or bridge review.

Traffic Element	Traffic Engineering Review Discipline(s)
Highway Lighting	Traffic Design, Traffic Mobility, Traffic Safety, District Traffic Engineer (DTE)
Pavement Markings	Traffic Design, Traffic Mobility, Traffic Safety, DTE
Panel or Sheet Signs	Traffic Design, Traffic Mobility, Traffic Safety, DTE
Traffic Signal Equipment	Traffic Design, Traffic Mobility, Traffic Safety, DTE
Limited Access Right-of-Way (extending, breaking, or protective buying)	Traffic Mobility, DTE
Traffic Analysis (HCS, Synchro, Sidra, VISSIM), Interstate Access, or operational/safety assessments such as Flashing Yellow Arrow evaluations	Traffic Mobility, Traffic Safety, DTE
Funded through Traffic Safety or Traffic Mobility Program	Traffic Design, Traffic Mobility, Traffic Safety, District Traffic Engineer (DTE)

The traffic review information will be available on the [INDOT Digital Delivery](#) webpage.

IDM Revisions

The referenced section of IDM [Chapter 14](#) has been revised to reflect these updates.
