

INDIANA DEPARTMENT OF TRANSPORTATION

Driving Indiana's Economic Growth

Design Memorandum No. 08-02 Technical Advisory

March 18, 2008

TO: All Design, Operations, and District Personnel, and Consultants

FROM: /s/ Anthony L. Uremovich
Anthony L. Uremovich
Design Resources Engineer
Production Management Division

SUBJECT: Use of *Indiana Design Manual*, English-Units Version

EFFECTIVE: Immediately

The *Indiana Design Manual*, english-units version, must be used for the design of each project for which design work was begun in english units. English-units versions of Part VI Chapters 58, 59, 60, 61, 62, 65, 66, 67, and 72 have been posted on the Department's website. Part VI metric-units Chapters 63 and 64 must be used for such projects until their english-units versions are made available.

The metric-units version for all Parts must continue to be used for each project for which design work was begun in metric units.

Each units discrepancy found between the english- and metric-units versions should be reported to me for Part IV, Hydrology / Hydraulics, and Part VI, Structural Design. Each units discrepancy found in another Part should be reported to Richard VanCleave.
