Comment Summary: _____

The 12 month rule we have combat veterans that can get hit by IED or shot on day 1 - day 30 in country which could medically discharge them. This 12 month rule should not apply to this instance.

- Female combat veteran leaves a ~~domestic~~ hostile environment shouldn't a special rule apply to get her into an apt so she would not be homeless and income should not be a guideline for this situation.

In the house it was voted to pay vendor not veteran

So I DVA could call Apt Complex to let
them know we (I DVA) will have you a
check within 3 to 7 days. ^{one of} Our goals from
IAVA is ~~to~~ to stop homelessness of
our Veterans.
