[Where is Earth's water located? USGS Water Science for Schools](#) usgs.gov

The World's Water "Water, Water, Everywhere...." You've heard the phrase, and for water, it really is true. Earth's water is (almost) everywhere: above the Earth in the air and clouds, on the Earth as rivers, oceans, ice, plants, and dogs, and inside the Earth in the top few miles of the ground. Below are two representations of where Earth's water resides. The left-side bar chart shows how almost all Earth's water is saline and in the oceans. And of the small amount that is actually freshwater, only a relatively small portion is available to sustain human, plant, and animal life. The globe image is meant to show how much actual water exists, as compared to the total size of the Earth. The spheres look small because it is

compared to the size of the whole globe. What it show is that Earth's water resides in a very thin slice all around the Earth's surface.

[Digital Public Library of America](#) [dp.la](#)

Digital Public Library of America brings together the riches of America's libraries, archives, and museums, and makes them freely available to the world. It strives to contain the full breadth of human expression, from the written word, to works of art and culture, to records of America's heritage, to the efforts and data of science. The DPLA aims to expand this crucial realm of openly available materials, and make those riches more easily discovered and more widely usable and used, through its three main elements:

[The Mini Page - US Flags](#) [unc.edu](#)

Our first flag had only 13 stripes and 13 stars for each of the original Colonies. Today, our flag has 13 stripes for the original 13 Colonies and 50 stars, one for each state.

[Linking history to moral choices today | Facing History and Ourselves](#) [facinghistory.org](#)

For more than 30 years, Facing History has believed that education is the key to combating bigotry and nurturing democracy. Through a rigorous investigation of the events that led to the Holocaust, as well as other recent examples of genocide and mass violence, students in a Facing History class learn to combat prejudice with compassion, indifference with participation, and myth and misinformation with knowledge. We work with educators throughout their careers to improve their effectiveness in the classroom, as well as their students' academic performance and civic learning.
