SUBJECT: Notice of Mass Layoff Pursuant to the Provisions of the WARN Act,
29 USC §2107(a)

Dear Commissioner Everson:

Pursuant to the "Worker Adjustment and Retraining Notification Act" (WARN) you are hereby notified of a planned employment loss in the form of a mass layoff as defined by the WARN Act, at the General Motors Indianapolis Stamping plant located at 340 S. White River Parkway West Drive, Indianapolis, IN 46222. Specifically, it is anticipated that all work, other than that which is building out, will be transferred to other GM plants or plants outside of GM over the next several months due to the announced plant closing. Production is scheduled to cease on June 30, 2011 and layoffs will occur commensurate with the loss of work. As a result of the cessation of producing these stamped metal parts an additional layoff will begin on May 2, 2011. The elimination of the aforementioned work will result in a permanent layoff of approximately one hundred sixty six (166) employees represented by the UAW International Union, Bob King, President, 8000 East Jefferson, Detroit Michigan 48214.

Employees laid off by this action may be eligible to receive State Unemployment Compensation and/or Supplemental Unemployment Benefits in accordance with Exhibit "D" of the Agreement between General Motors Corporation and the UAW dated September 26, 2007. For hourly employees, bumping rights do exist under the local collective bargaining agreement.

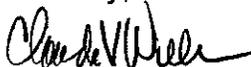

The currently anticipated hourly job classifications and the number of employees to be impacted are attached.

Attachment - UAW classifications and the number of employees who will be laid off pursuant to the Local Seniority Agreement.

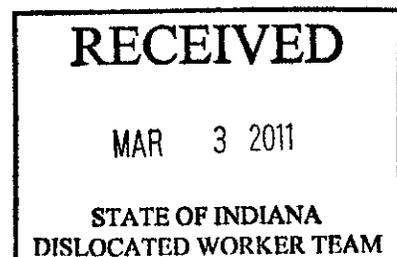

Any questions regarding this matter may be directed to:
