

Additional Documents Submitted

This site also submitted a staffing schedule that shows that different staff work at the Assisted Living as compared to the Skilled Nursing Facility. FSSA chose not to post the full staffing schedule to maintain individuals' privacy, but can attest to the fact that there are different names in the different schedules.

This site also submitted a list of annual in-services that their staff complete, including a resident rights training, an abuse training, resident complaint/grievance training, emergency preparedness training, and dementia training. Given the formatting of the sheet, it would have been incompatible with screen readers to post this, so for the sake of accessibility of all, FSSA is listing out the trainings that the staff take at this site.
