

SMART 911

Narration: “SMART 911 is a free, secure service that helps save lives by giving emergency responders the information they need — when every second counts.”

Narration: “In an emergency, people can’t always talk. They may be scared, injured, or unable to communicate.”

Narration: “With SMART 911, you create a confidential safety profile online with important details about you and your household.”

Narration: “You can include medical conditions, medications, disabilities, addresses, vehicles, and emergency contacts — whatever helps responders help you.”

Narration: “When you call 911 from a registered phone number, your profile automatically appears on the dispatcher’s screen.”

Narration: “This gives responders critical information before they arrive, helping them act faster and more accurately.”

Narration: “Your information is secure and only visible to 911 during an active emergency call.”

Narration: “SMART 911 is free, easy to set up, and could save your life. Sign up today.”
