Federal Compliance Measures:

Below is the breakdown of the cluster's data by indicator. As a reminder, each finding must be corrected as soon as possible, and in no case later than one year from the date of this notification. BCDS must verify the cluster has corrected each finding of noncompliance by verifying the following:

- The cluster has corrected each individual case of child specific noncompliance unless the child is no longer within the jurisdiction of the program, and;
- The cluster is correctly implementing the specific regulatory requirements by achieving 100% compliance with the relevant IDEA requirement as based upon review of subsequent data which may be collected from subsequent desk reviews, onsite-monitoring, or a data base.

Federal Indicator #1 – **Timely Service Delivery**

The target for this indicator is 100%. For FFY 2023, BCDS found the cluster in **noncompliance** for this indicator. The requirement as referenced in **34CFR303.344(f)(1)** – Content of an IFSP- “The projected dates for initiation of the services in paragraph (d)(1) of this section as soon as possible after the IFSP meetings described in 303.342 . . .”

Cluster H's performance was at 88.7% due to 6 children not receiving their services within a timely manner (30 days) and the finding issued in FFY2022 is sustained. BCDS has already verified that the 6 children received services although late or exited the program. We will run subsequent data to determine if you are in compliance with this indicator. BCDS has full confidence Cluster H will be able to correct the deficiency. Technical assistance is available to assist the cluster in reaching this goal.

Federal Indicator #7 – **45 days from Referral to IFSP**

The target for this indicator is 100%. For FFY2023, BCDS found the cluster **met compliance** for this indicator. The requirement as referenced in **34CFR30.310(a)** - the initial IFSP meeting under §303.342 must be completed within 45 days from the date the lead agency or EIS provider receives the referral of the child.

Federal Indicator #8A – **Transition Steps and Services**

The target for this indicator is 100%. For FFY 2023, BCDS found the cluster **met compliance** for this indicator. Cluster H's performance was at 96.9% due to 1 child not having documentation of 30-month notice to LEA in their file and a finding is issued through this letter. BCDS has already verified that the 1 child did get referred to the LEA although late. We will run subsequent data to determine if you are in compliance with this indicator. BCDS has full confidence Cluster H will be able to correct the deficiency. Technical assistance is available to assist the cluster in reaching this goal.

Federal Indicator #8C – **Timely Transition Meeting**

The target is 100% for this indicator. For FFY 2023, BCDS found the cluster in **noncompliance** for this indicator. Cluster H’s performance was at 81.3% due to 6 children not receiving a timely transition meeting and a finding is issued through this letter. BCDS has verified that the 6 children received a transition meeting outside of the federal timeline. BCDS has full confidence Cluster H will be able to correct the deficiency. Additional Data Reviewed - **Insurance Correctly Documented in Child File and EIHub**

The expectation for this data is 100%. For FFY 2023, BCDS found the cluster did **not meet expectation** for this data. The requirement is for all insurance information listed in the EIHub data system be up to date and match what is collected in the child’s file maintained in the cluster’s file repository.

Cluster H’s performance was at 98.1% due to 1 child not having up to date insurance or no insurance in EIHub.

BCDS is committed to supporting the cluster's efforts to improve outcomes for infants and toddlers with disabilities and their families, and we look forward to working with staff over the next year. Please contact me or the Quality Review Leader with any questions that you may have.

Sincerely,
