SCOPE OF WORK

Funds for this project have been secured through the Substance Abuse Prevention and Treatment Block (SABG) program and American Rescue Plan Act 2021, for the Family and Social Services Administration, through the Division of Mental Health and Addiction.

This funding opportunity will be designed to work with youth who are justice involved or at-risk for justice involvement, to provide services that aim to prevent substance use/misuse. This funding may be used for training and/or implementation of evidence-based programming that focuses on mentoring, life skills, trauma-informed care, and social emotional wellness as they relate to primary prevention of substance misuse. Funding is designed to be utilized by community organizations that have mentoring components infused into their programming.

The respondents must use data to support the selection of the target population, proposed strategies, and location of services. Proposals must include a detailed plan including but not limited to the following:

1. Locations of services
2. Potential impact of the program (e.g. number of youth, family, etc. to be affected from implementation, number of trainings provided over the year)

The proposal must identify the social consequences and impact that health disparities (including but not limited to race, religion, ethnicity, nationality, gender, age, disability, sexual orientation, and socio-economic status) have on the target community. The purpose of this section is to demonstrate an understanding of the need to address health disparities during services, the ways health disparities negatively impact quality of life for populations at risk, and the impact health disparities have on the community.
