Educational Letter

To: All Providers of Child Mental Health Wraparound Services

RE: DMHA Educational Letter – Overbilling by Providers

Effective: Immediately

In response to a recent audit, the Division of Mental Health and Addiction is issuing this educational letter regarding overbilling by Child Mental Health Wraparound (CMHW) providers.

It is the responsibility and obligation of all CMHW providers to accurately bill for services rendered. Regardless of applications or programs that may be used to track billing, the provider is ultimately responsible for accurate billing. An hours-to-units conversion chart can be found [here](#). An overview of CMHW Service Claim and Billing can be found within the [CMHW Policy Module, Section 16](#).

Providers found to be habitually inaccurate and/or fraudulent in their billing will be sanctioned up to and including deauthorization as a CMHW provider. Please submit questions to DMHA at DMHAYouthServices@fssa.in.gov.
